**5<sup>th</sup> YEAR CURRICULUM**

**6-year program**

**Academic year: 2022/2023**

*„The property rights, including copyrights, to the syllabus are vested in Medical University of Warsaw. The syllabus can be used for purposes related to education during studies at the Medical University of Warsaw. The use of the syllabus for other purposes requires the consent of the Medical University of Warsaw.”*

## **AUTHORITIES OF MEDICAL UNIVERSITY OF WARSAW – TERM 2020-2024**

**Rector** – Professor Zbigniew Gaciong, MD, PhD

**Vice Rector for Student Affairs and Education** – Professor Marek Kuch, MD, PhD

**Vice Rector for Science and Technology Transfer** – Professor Piotr Pruszczyk, MD, PhD

**Vice Rector for Human Resources** – Professor Agnieszka Cudnoch-Jedrzejewska, MD, PhD

**Vice Rector for Clinical Affairs and Investments** – Professor Wojciech Lisik, MD, PhD

**Vice Rector for International Relations, Development and Promotion** – Professor Paweł Włodarski, MD, PhD

## **FACULTY AUTHORITIES OF MEDICAL UNIVERSITY OF WARSAW – TERM: 2020-2024**

**Faculty of Medicine** – Professor Rafał Krenke MD, PhD

**English Division – Faculty of Medicine** – Assoc. Prof. Jacek Sieńko, MD, PhD.

## **DEAN’S OFFICE**

**Head of the Dean’s Office** – Krystyna Jarzab, MA

**Student Administration Officer (1st, 2nd and 3rd -Year)** – Aleksandra Chilecka

**Student Administration Officer (4th, 5th, 6th -Year)** – Maria Mierzyńska, MA

## **STUDENT GOVERNMENT REPRESENTATIVES:**

**President** – Carolyn Szwed

**Vice President** – Mike Lee

**Secretary** – Michail Koutentakis

**Student Rights** – Huda Shah

**Social Media** – Danae Kim

**Event Coordinator** – Catherine Gartside, Rakesh Roshan

**www:** <https://edsgwum.wixsite.com/edsg>

## **CLASS REPRESENTATIVE:**

Ishani Khanna – 5 year

## SCHEDULE – ACADEMIC YEAR 2022/2023

### 6-year program

#### **WINTER SEMESTER – 01.10.2022 – 19.02.2023**

STUDENT'S ACADEMIC CLASSES: 01.10.2022 – 18.12.2022

02.01.2023 – 29.01.2023

WINTER HOLIDAYS: 19.12.2022 – 01.01.2023

**EXAM SESSION: 30.01.2023 – 05.02.2023**

DAYS OFF BETWEEN SEMESTER: 06.02.2023 – 12.02.2023

RETAKE EXAM SESSION: 13.02.2023 – 19.02.2023

#### **SUMMER SEMESTER – 20.02.2023 – 30.09.2023**

STUDENT'S ACADEMIC CLASSES: 20.02.2023 – 30.04.2023

08.05.2023 – 11.06.2023

SPRING HOLIDAYS: 01.05.2023 – 07.05.2023

DAYS OFF BEFORE EXAM SESSION: 12.06.2023 – 18.06.2023

**EXAM SESSION: 19.06.2023 – 09.07.2023**

SUMMER HOLIDAYS: 10.07.2023 – 03.09.2023

RETAKE EXAM SESSION: 04.09.2023 – 17.09.2023

SUMMER HOLIDAYS: 18.09.2023 – 30.09.2023

Curriculum of the 5<sup>th</sup> year of 6-year 2022/2023 ED program and the list of contents

5th year

Lecture (L)			
Seminar (S)		20	0.6
Classes (C)		35	4.1
e-learning (e-L)			
Practical classes (PC)			
Work placement (WP)			

**Unassisted student's work**

Preparation for classes and completions

30

1

**3. COURSE OBJECTIVES**

O1	Knowledge and practical skills in advanced cardiopulmonary resuscitation based on most recent guidelines
O2	Knowledge and practical skills in recognition and management of life threatening conditions
O3	Knowledge of pain management in diverse clinical scenarios
O4	Knowledge of pre-operative management of a surgical patient
O5	Knowledge of fundamentals of general and regional anesthesia
O6	Understanding perioperative monitoring
O7	Understanding indications for intensive care treatment
O8	Understanding of futile therapy in intensive care
O9	Knowledge and practical skills in management of respiratory failure

**4. STANDARDS OF LEARNING – DETAILED DESCRIPTION OF EFFECTS OF LEARNING** *(concerns fields of study regulated by the Regulation of Minister of Science and Higher Education from 26 of July 2019; does not apply to other fields of study)*
**Code and number of effect of learning in accordance with standards of learning**
*(in accordance with appendix to Regulation of Minister of Science and Higher education from 26th July 2019)*
**Effects in time****Knowledge – Graduate\* knows and understands:**

E.W6.	the most common life threatening conditions in children and the management of these conditions
E.W29.	principles of pain management, including cancer related and chronic pain
E.W41.	capabilities and limitations of laboratory testing in emergencies
F.W4.	principles of perioperative safety, patient preparation for surgery, general and local anesthesia and controlled sedation
F.W5.	post-operative treatment with analgesic therapy and postoperative monitoring
F.W6.	indications for and principles of use of intensive care

F.W7.	applicable recommendations concerning resuscitation of newborns, children and adults;
F.W15.	principles of suspecting and recognizing the brain death
C.W29.	definition and pathophysiology of shock, especially the differential diagnosis of shock and multiorgan failure
<b>Skills– Graduate* is able to:</b>	
E.U13.	assess and describe the patient's somatic and psychological states
E.U16.	plan diagnostic, therapeutic and preventive treatment
E.U18.	propose the individualization of applicable therapeutic guidelines and alternative treatment in the case of ineffectiveness or contraindications to standard therapy
E.U21	recognize the conditions in which life expectancy, functional patient state or preferences limit the treatment according to the guidelines for a given disease
E.U24.	interpret laboratory test results with the identification of reasons for deviation
E.U25.	use feeding protocols (enteral and parenteral)
E.U29.	perform the basic medical procedures, including: <ul style="list-style-type: none"> <li>1) body temperature measurement, pulse count and non-invasive blood pressure check,</li> <li>2) vital signs monitoring with the aid of a pulse oximeter and cardiac monitor,</li> <li>3) spirometry, oxygen therapy, manual ventilation and basics of mechanical ventilation</li> <li>4) oro- and nasopharyngeal airway device placement</li> <li>5) intravenous, intramuscular, subcutaneous injections, intravenous cannulation, venous blood sampling, blood culture taking, arterial and capillary blood sampling,</li> <li>6) nasal, pharyngeal and skin swab taking,</li> <li>7) male and female urinary bladder catheterisation, nasogastric tube placement, stomach lavage, enema,</li> <li>8) standard resting electrocardiogram with adequate interpretation, electrical cardioversion and defibrillation,</li> <li>9) simple strip test and blood glucose check.</li> </ul>
E.U32.	plan specialist consultations
E.U33.	initiate the basic management in acute poisoning
E.U34.	monitor the patient's condition in acute chemical or medication poisoning
E.U37.	properly manage traumas (place a bandage, immobilize, manage and suture wounds)
E.U38.	keep a patient's medical records.
F.U5.	place a venous access
F.U10.	perform basic life resuscitation with automated external defibrillation devices and other resuscitation measures, as well as first aid
F.U11.	perform resuscitation according to the latest advanced guidelines
F.U12.	monitor perioperative care with the aid of basic vital signs;
F.U21.	assess an unconscious patient according to the international point scales

\* In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019 „graduate”, not student is mentioned.

<b>5. ADDITIONAL EFFECTS OF LEARNING (<i>non-compulsory</i>)</b>	
<b>Number of effect of learning</b>	<b>Effects of learning i time</b>
<b>Knowledge – Graduate knows and understands:</b>	
D.W5.	rules and methods of communication with patients and their family that contribute to development of an empathic relationship, based on trust
D.W14.	rules of promotion of health, its objectives and main directions of operation, with a special focus on the awareness of healthy lifestyle
G.W11.	principles of the medical privilege, keeping medical documentation and penal, civil and professional liability of a medical doctor
<b>Skills– Graduate is able to:</b>	
D.U1.	include patient’s subjective needs and expectations resulting from the socio-cultural background in the entire therapeutic process
D.U5.	conduct an interview with an adult patient, a child and the family with empathy and listeni actively; is able to discuss the patient’s life situation
D.U13.	respect ethical standards in professional activities
D.U15.	observe patient’s rights
D.U16.	assume the responsibility for improving his/her qualifications and teaching other people
D.U17.	critically analyze the medical bibliography (also in English) and draw conclusions
<b>Social Competencies – Graduate is ready for:</b>	
SC1	Developing and maintaining a deep and respectful contact with a patient, demonstrating understanding of differences in belief and culture
SC2	Being guided by the patients wellbeing, placing it firstline
SC3	Keeping doctor-patient confidentiality and patient’s rights
SC4	Making decisions for patients based on ethical principles, with the understanding of their social background and limitations resulting from the disease
SC5	Observing and identifying own limitations and assessing personal deficits and educational Leeds
SC6	Propagating health behaviours
SC7	Using objective sources of information
SC8	Formulating conclusions based on personal measurements and observations
SC9	Introducing rules of professional relations and teamwork among specialists, inclusive of representatives from other medical specialties, also in a multicultural and multinational environment
SC10	Formulating opinions regarding different aspects of professional activity

SC11	Taking responsibility for decisions made during professional activities, inclusive of self and others safety
------	--

6. CLASSES		
Form of class	Class contents	Effects of Learning
Lectures (e-learning) asynchronous		
S1	Preparation of a patient for surgery, anesthesia and controlled sedation	E.W41, F.W4, F.W5, E.U13, E.U16, E.U32, F.U12, D.W5, D.W14, D.U1, D.U5, D.U13, D.U14, D.U15, D.U16, D.U17, G.W11
S2	Safe use of local anesthetics and local anesthetic systemic toxicity (LAST) Regional anesthesia: peripheral nerve blocks	F.W4, E.U32
S3	Regional anesthesia: central nerve blocks	F.W4, E.U32
S4	Perioperative pain management	E.W29
S5	Principles of intensive care: indications. Futility of therapy.	F.W6, F.W15, E.U18, E.U21, E.U24, E.U25
S6	Respiratory failure and management	F.W6.
S7	Shock and sepsis: management. Cannulation.	C.W29.
S8	Management of life threatening conditions in children	E.W6
Practical classes		
C1	Advanced Life Support (ALS) SIMULATION CENTRE	F.W7.
C2	Management of life threatening conditions. Point of care ultrasonography in anesthesiology, intensive care and emergency states SIMULATION CENTRE	E.U29, E.U33, E.U34, E.U37, F.U5, F.U10, F.U11, F.U21
C5 C6 C7 C8	Practical classes in operating theatres	F.W4, F.U5
C9	Practical classes in the postoperative and recovery units	E.U38, F.U5, F.U12
C10	Practical classes in the intensive care unit	E.U38, E.U16, E.U24

#### Supplementary

### 8. VERIFYING THE EFFECT OF LEARNING

Code of the course effect of learning	Ways of verifying the effect of learning	Completion criterion
<i>e.g. G.K1, G.S1, K1</i>	<i>This field defines the methods used for grading students e.g. pop quiz, test, written report etc.</i>	<i>e.g. threshold number of points</i>
E.W6 E.W29 E.W41 F.W4 F.W5 F.W6 F.W7 F.W15 C.W29 E.U13 E.U16 E.U18 E.U21 E.U24 E.U25 E.U29 E.U32 E.U33 E.U34 E.U37 E.U38 F.U5 F.U10 F.U11 F.U12 F.U21 D.W5 D.W14 G.W11 D.U1 D.U5 D.U13 D.U14 D.U15 D.U16 D.U17 K1-4	Student presence card – activity and presence will be noted in the card during classes	Acquiring knowledge from lectures. Presence during classes and active participation confirmed by educator
E.W6 E.W29 E.W41 F.W4 F.W5 F.W6 F.W7 F.W15 C.W29 E.U13 E.U16 E.U18 E.U21 E.U24 E.U25 E.U29 E.U32 E.U33 E.U34 E.U37 E.U38 F.U5 F.U10 F.U11 F.U12 F.U21 D.W5 D.W14 G.W11 D.U1 D.U5 D.U13 D.U14 D.U15 D.U16 D.U17 K1-4	Practical assessment by assistant during cardiopulmonary resuscitation	Competence in advanced life support
E.W6 E.W29 E.W41 F.W4 F.W5 F.W6 F.W7 F.W15 C.W29 E.U13 E.U16 E.U18 E.U21 E.U24 E.U25 E.U29 E.U32 E.U33 E.U34 E.U37 E.U38 F.U5 F.U10 F.U11 F.U12 F.U21 D.W5 D.W14 G.W11 D.U1 D.U5 D.U13 D.U14 D.U15 D.U16 D.U17 K1-4	Final examination	Achieving a minimum mark in the final test

**9. ADDITIONAL INFORMATION** (*information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club*)

During the practical classes and on contact with patients, we recommend medical clothing with short sleeves. Please do not wear private clothing. In case of using a white apron on personal clothing, the apron should be fastened. Long hair should be pinned back. It is necessary to change to theatre applicable footwear with adherence to safety rules. During practical classes in areas with patients – the rule “nothing below elbow” should be applied – that is watches, jewelry should be taken off. The “5 moments of hand hygiene” should be applied. Diagnostic medical gloves should be donned only after cleaning and/or disinfection of hands, directly before patient contact.

Punctuality is mandatory.

A student not prepared for practical classes may not be allowed to attend.

The seminars will be compulsory during the rotation in the practical weeks.

A student presence card is mandatory and must be collected at the secretariat. Presence during all classes must be noted in the student card and at the end of the classes must be brought back to the secretariat.

In case of absence during classes, it may be necessary to attend with a different group. All issues related to the absence must be reported to the Head of the given department or to the course coordinator.

Form of credit: written final test and practical skills assessment in ALS.

Grade	Criteria
<b>2.0 (failed)</b>	No ALS skills and/or <60% correct MCQ answers
<b>3.0 (satisfactory)</b>	61-68% correct MCQ answers
<b>3.5 (rather good)</b>	69-77% correct MCQ answers
<b>4.0 (good)</b>	78-85% correct MCQ answers
<b>4.5 (more than good)</b>	86-94% correct MCQ answers
<b>5.0 (very good)</b>	>95% correct MCQ answers

In case of failure in the final test: a second attempt test may be made available with the average result including the fail result. In case of a second failure, an oral examination will be conducted. The ALS skills will be assessed several times unless the instructor deems it a failure and thus a fail mark will be given.

## Neurology

2. BASIC INFORMATION				
Year and semester of studies	5 year, first ( winter) semester		Number of ECTS credits	5.00
FORMS OF CLASSES		Number of hours	ECTS credits calculation	
Contacting hours with academic teacher				
Lecture (L)				
Seminar (S)		30	1,5	
Classes (C)		70	3	
e-learning (e-L)				
Practical classes (PC)				
Work placement (WP)				
Unassisted student's work				

Preparation for classes and completions	15	0.5
---	----	-----

<b>3. COURSE OBJECTIVES</b>	
O1	etiology and symptoms of neurologic diseases which they can deal with during their work as general practitioner (family doctor)
O2	diagnostic procedures and tests used in neurology and interpretation of their results
O3	management of the most common neurological diseases

<b>4. STANDARDS OF LEARNING – DETAILED DESCRIPTION OF EFFECTS OF LEARNING (concerns fields of study regulated by the Regulation of Minister of Science and Higher Education from 26 of July 2019; does not apply to other fields of study)</b>	
<b>Code and number of effect of learning in accordance with standards of learning</b> (in accordance with appendix to Regulation of Minister of Science and Higher education from 26th of July 2019)	<b>Effects in time</b>

**Knowledge – Graduate\* knows and understands:**

G.K1/ E.W1	environmental and epidemiological conditions of the most common diseases
G.K2/ E.W13	basic syndromes of neurological symptoms
G.K3/ E.W14	causes, symptoms, principles of diagnosis and therapeutic management in the most common diseases of the nervous system, including: 1) headaches: migraine, tension headache, headache syndromes and V nerve neuralgia, 2) cerebral vascular diseases, especially stroke, 3) epilepsy, 4) infections of the nervous system, in particular meningitis, Lyme disease, herpetic encephalitis, neurotransmission diseases, 5) dementia, in particular Alzheimer's disease, frontal dementia, vascular dementia and other dementia syndromes, 6) diseases of the basal ganglia, in particular Parkinson's disease, 7) demyelinating diseases, in particular multiple sclerosis, 8) diseases of the neuromuscular system, in particular amyotrophic lateral sclerosis and sciatica, 9) craniocerebral injuries, in particular concussion;
G.K4/ E.W42	indications for the implementation of monitored therapy

**Skills– Graduate\* is able to:**

G.S1/ E.U1	conduct a medical interview with an adult patient;
G.S2/ E.U3	conduct a complete and targeted physical examination of an adult patient;
G.S3/E.U7	assess the general condition, state of consciousness and awareness of the patient;

G.S4/ E.U12	carry out differential diagnosis of the most common diseases of adults and children;
G.S5/ E.U14	recognize life-threatening states;
G.S6/ E.U15	recognize the condition after consuming alcohol, drugs and other stimulants;
G.S1/ E.U16	plan diagnostic, therapeutic and prophylactic procedures;
G.S7/ E.U20	qualify the patient for home and hospital treatment;
G.S8/ E.U21	identify conditions in which the life expectancy, functional state or patient preferences limit the management of the guidelines defined for the given disease
G.S9/ E.U24	interpret the results of laboratory tests and identify the causes of deviations from the norm
G.S10/ E.U30, 5	assist in the following medical procedures and procedures: a lumbar puncture

\* In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019 „graduate”, not student is mentioned.

<b>5. ADDITIONAL EFFECTS OF LEARNING (non-compulsory)</b>	
<b>Number of effect of learning</b>	<b>Effects of learning i time</b>
<b>Knowledge – Graduate knows and understands:</b>	
K1	
K2	
<b>Skills– Graduate is able to:</b>	
S1	
S2	
<b>Social Competencies – Graduate is ready for:</b>	
SC1	
SC2	

<b>6. CLASSES</b>		
<b>Form of class</b>	<b>Class contents</b>	<b>Effects of Learning</b>
SEMINARS	<p>They discuss the symptoms, diagnosis and treatment of the most common neurological diseases and syndromes.</p> <p>The topics of the seminars include:</p> <ol style="list-style-type: none"> <li>1. Anatomy and physiology of the Central and Peripheral Nervous System- repetition</li> <li>2. Hemorrhagic stroke and subarachnoid hemorrhage</li> </ol>	G.K1, G.K2., G.K3, G.K4

	3. Ischemic stroke 4. Management of ischemic stroke 5. Motor neuron disease and other spinal cord diseases 6. Skeletal muscle diseases 7. Myasthenia and disorders of the neuromuscular junction 8. Peripheral neuropathies 9. Demyelinating diseases 10. Back pain - diagnosis and management 11. Vertigo- diagnosis and management 12. Headache - diagnosis and management 13. Neoplastic tumors of the nervous system 14. Epilepsy 15. Traumatic lesion of the nervous system 16. Movement disorders 17. Dementias 18. Neurological signs and symptoms in systemic diseases and general medicine 19. Brain death and neurocritical care	
Practical training	1. teaching physical neurological examination, 2. interpretation of diagnostic tests and algorithms of diagnostic procedure, 3. demonstration of patients with selected neurological diseases 4. demonstration of basic additional tests used in neurological diagnostics: Doppler ultrasound examination, neuroimages, EMG, EEG	G.S1, G.S2, G.S3, G.S4, G.S5, G.S6, G.S7, G.S8, G.S9, G.S10,

## 7. LITERATURE

### Obligatory

“Lange Clinical Neurology”, Greenberg D, Aminoff M, Simon R. edition 11, Mc Graw Hill Education 2020

The manual has not been updated since 2020. In the event of discrepancies, the information from the annually updated seminars shall apply.

### Supplementary

1. “Neurology and Neurosurgery Illustrated” K.W.Lindsay, I.Bone. Churchill Livingstone 2010
2. “Clinical neuroanatomy” R.S Snell, 8 edition. Lippincott Williams & Wilkins, a Wolters-Kluwer.2022
3. “Mosby’s Color Atlas and Text of Neurology”. Perkin DG; Times Mirrors Int. Publishers Ltd 1998

## 8. VERIFYING THE EFFECT OF LEARNING

Code of the course effect of learning	Ways of verifying the effect of learning	Completion criterion
G.S2	Practical skills examination	Positive evaluation of the teaching assistant
G.K1, G.K2., G.K3, G.K4	Final colloquium ( 50 MCQ and open questions).	threshold number of points - 30 good answers
G.K1, G.K2., G.K3, G.K4 G.S1, G.S3, G.S4, G.S5, G.S6, G.S7, G.S8, G.S9, G.S10,	Final exam in winter exam session ( 100 MCQ)	exam threshold = 56 good answers  thresholds for individual grades: <ul style="list-style-type: none"> <li>• grade 3.0 = 56-64 good answers</li> <li>• grade 3.5 = 65-73</li> <li>• grade 4.0 = 74-82</li> </ul>

- |  |  |   |
|--|--|---|
|  |  | <ul style="list-style-type: none"> <li>• grade 4.5 = 83-91</li> <li>• grade 5.0 = 92-100</li> </ul> |
|--|--|---|

**9. ADDITIONAL INFORMATION** (*information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club*)

- Duration of the neurology course: 3 weeks (from Monday to Friday)
- During the course it is possible to be absent only once. The student makes up for this absence in the form determined by the assistant (presence on duty, writing a paper etc.)
- If a student has 2-3 absences, he/she must make up for them with another group. Only then, the student can take the colloquium, which he/she passes with another group.
- More than 3 absences result in failure to complete a block of classes.

**SEMINARS**

The seminars are conducted live by assistants. Seminar outlines and additional self-study materials are available on the e-learning platform.

**PRACTICAL TRAINING**

The first week of classes is devoted to teaching neurological examination and demonstrations of clinical cases. In the following weeks, students are divided into subgroups and examine patients under the supervision of designated assistants. In the last week of classes, a practical test of neurological examination skills is carried out.

**PRELIMINARY TEST**

The preliminary test takes place on the first day of the course. The test consists of 5 questions and covers the basic knowledge of the anatomy and physiology of the nervous system. The test questions are on the web site: [neurologia1.wum.edu.pl](http://neurologia1.wum.edu.pl)

In the event of a negative result of the test, the student must take it again at the beginning of the second week of classes.

**PRACTICAL SKILLS EXAMINATION**

In the last week of the classes, students are checked for their practical skills in neurological examination

**FINAL COLLOQUIUM**

On the last day of the course students take the final colloquium consisting of 50 open and multiple choice questions. At least 30 correct answers are required to pass the test. The colloquium can be re-passed only twice. If the results of the repetitive tests are negative, the student must repeat the entire course of neurology.

To credit the neurology course, the student must be present at all classes (with the exception of 1 allowed absence) and have at least a satisfactory (3.0) grade with:

- preliminary test
- practical skills examination
- final colloquium

## Oncology

## 3. COURSE OBJECTIVES

O1	Diagnostic tests in oncology
O2	Epidemiology of cancer
O3	Contemporary cancer therapy

04	Palliative medicine
05	Pain care in cancer therapy
06	The most common cancers - principles of diagnostic and therapeutic procedures

**4. STANDARDS OF LEARNING – DETAILED DESCRIPTION OF EFFECTS OF LEARNING** (*concerns fields of study regulated by the Regulation of Minister of Science and Higher Education from 26 of July 2019; does not apply to other fields of study*)

<b>Code and number of effect of learning in accordance with standards of learning</b> <i>(in accordance with appendix to Regulation of Minister of Science and Higher education from 26th of July 2019)</i>	<b>Effects in time</b>
--	------------------------

**Knowledge – Graduate\* knows and understands:**

E.W23	The student knows environmental and epidemiological conditions of the most common human cancers
E.W24	The student knows the basics of early detection of tumors and oncology screening principles
E.W25	The student knows the possibilities of contemporary cancer therapy (including multimodal therapy), perspectives of cell and gene therapies and their undesirable effects
E.W26.	The student knows the principles of combined therapies in oncology, algorithms of diagnostic and therapeutic procedures in the most common human cancers
E.W27.	The student knows and understands the causes, symptoms, principles of diagnosis and therapeutic treatment in the most common problems of palliative medicine, including: a. symptomatic treatment of the most common somatic symptoms. b. Proceedings in tumor cachexia and in the prevention and treatment of pressure ulcers
E.W28	The student knows the rules of palliative treatment with the patient in the terminal state
E.W29	The student knows the principles of pain treatment, including cancer and chronic pain

**Skills– Graduate\* is able to:**

E.U1	The student conducts a medical interview with an adult patient
E.U16	The student plans diagnostic, therapeutic and prophylactic procedures
E.U18	The student proposes to individualize the existing therapeutic guidelines and other methods of treatment for ineffectiveness or contraindications to standard therapy
E.U21	The student defines the states in which the duration of life, functional status or preferences of the patient limit the treatment in accordance with the guidelines laid down for a given disease
E.U24	The student interprets laboratory tests and identifies the causes of deviations

E.U30	The student assists in carrying out the following procedures and medical procedures: transfusion of blood and blood derivatives, drainage of the pleural cavity, puncture of the peritoneal cavity, lumbar puncture, fine needle biopsy
E.U31	The student interprets the pharmaceutical characteristics of medicinal products and critically assesses the advertising materials regarding medicines
E.U32	The student plans specialist consultations
E.U38	The student completes the patient's medical records

\* In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019 „graduate”, not student is mentioned.

<b>5. ADDITIONAL EFFECTS OF LEARNING (non-compulsory)</b>

3. COURSE OBJECTIVES	
O1	Learning the principles of assessing, differential diagnosis and treatment of general orthopaedics, traumatic and non-traumatic disorders
O2	Learning the basics of an orthopedic physical examination
O3	Improve knowledge of the anatomy, physiology and pathophysiology of the musculoskeletal system

4. STANDARDS OF LEARNING – DETAILED DESCRIPTION OF EFFECTS OF LEARNING (concerns fields of study regulated by the Regulation of Minister of Science and Higher Education from 26 of July 2019; does not apply to other fields of study)	
Code and number of effect of learning in accordance with standards of learning (in accordance with appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019)	<b>Effects in time</b>  <div> <div>A.W1</div> <div>A.W2</div> <div>A.U3</div> <div>A.U4</div> <div>F.W1, pts 3&amp;4</div> <div>F.W2</div> <div>F.W3</div> <div>F.W4</div> </div> <div> <div>F.W5</div> <div>F.W10</div> <div>F.W13 pt. 6</div> <div>E.U.23</div> <div>F.U.7</div> <div>F.U.8</div> </div>
<b>Knowledge – Graduate* knows and understands:</b>	
A.W1	appropriate Polish and English anatomical, histological and embryological terminology
A.W2	structure of the human body in the topographical approach (upper and lower limb, chest, abdomen, pelvis, back, neck, head) and the functional approach (skeletal system, muscular system, urinary system, reproductive system, nervous system and sensory system, integumentary system)
F.W.2	specific paediatric surgery, including traumatology, otolaryngology, acquired defects and diseases in children which require surgical treatment
F.W1, 3 &4	causes, symptoms, principles of diagnosis and therapeutic treatment in relation to the most common diseases requiring surgical intervention taking into account the distinctions of childhood, in particular: 3) limb and head diseases 4) bone fractures and organ injuries
F.W3	rules of qualification and performance, as well as the most common complications of basic surgical procedures and invasive diagnostic and therapeutic procedures
F.W4	principles of perioperative safety, patient preparation for surgery, general and local anaesthesia and controlled sedation
F.W5	post-operative treatment with analgesic therapy and postoperative monitoring
F.W10, 1, 2, 3	problems of contemporary imaging studies, in particular: 1) radiological symptomatology of basic diseases 2) instrumental methods and imaging techniques used to perform therapeutic procedures 3) indications, contraindications and preparation of patients for particular types of imaging examinations and contraindications to the use of contrast agents
F.W.13, 6	causes, symptoms, principles of diagnosis and therapeutic treatment in the case of the most common diseases of the central nervous system in terms of: 6. diseases of the spine and spinal cord
<b>Skills– Graduate* is able to:</b>	
G.S1	Able to assess an x-ray with regards to the most typical fractures, especially long bones
A.U3	explain the anatomical background of the physical examination

A.U4	correlate the relationships between the anatomical structures on the basis of in vivo diagnostic studies, especially medical imaging (X-ray, contrast-enhanced studies, computed tomography, magnetic resonance imaging)
E.U23	propose a rehabilitation programme for the most common diseases
F.U7	assess the result of radiographic studies in terms of the most frequent kinds of fractures, especially long bone fractures
F.U8	immobilise a limb temporarily, choose the kind of immobilisation necessary to be applied in typical clinical cases and control the appropriate blood flow in the limb after an immobilising dressing is put on

\* In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019 „graduate”, not student is mentioned.

5. ADDITIONAL EFFECTS OF LEARNING (non-compulsory)	
Number of effect of learning	Effects of learning i time
<b>Knowledge – Graduate knows and understands:</b>	
G.W1	health assessment methods of an individual and a population, disease and medical procedure classification
	Understands the causes, typical symptoms, basis for diagnosis and treatment of the most common orthopedic conditions
	Understands basics and specifics of pediatric orthopedics, including trauma, congenital and acquired conditions which may require surgical treatment
<b>Skills– Graduate is able to:</b>	
S1	Student is able to carry out procedures following injuries (dressing or casting, cleaning and suturing a wound)
G.U7	recognise when examining a child the behaviours and symptoms suggesting that the child is a victim of violence
G.U3	interpret the incidence of diseases and disability
<b>Social Competencies – Graduate is ready for:</b>	
SC1	
SC2	

6. CLASSES

2. BASIC INFORMATION				
Year and semester of studies	V year, IX and X semester		Number of ECTS credits	3.00
FORMS OF CLASSES		Number of hours	ECTS credits calculation	
Contacting hours with academic teacher				
Lecture (L)				
Seminar (S)		25	1	
Classes (C)		25	1	
e-learning (e-L)				
Practical classes (PC)				
Work placement (WP)				
Unassisted student's work				
Preparation for classes and completions		50	1	

<b>3. COURSE OBJECTIVES</b>	
O1	Adaptation of medical knowledge for the purpose of law
O2	Understanding of death, thanatology, and goals for forensic autopsy.

O3	Understanding different mechanisms of natural and unnatural deaths.
O4	Forensic issues of traumatology.
O5	Forensic toxicology.
O6	Forensic genetics.
O7	Forensic aspects of interpersonal violence and child abuse.

**4. STANDARDS OF LEARNING – DETAILED DESCRIPTION OF EFFECTS OF LEARNING** (*concerns fields of study regulated by the Regulation of Minister of Science and Higher Education from 26 of July 2019; does not apply to other fields of study*)

**Code and number of effect of learning in accordance with standards of learning**  
(in accordance with appendix to Regulation of Minister of Science and Higher education from 26th of July 2019)

**Effects in time**

**Knowledge – Graduate\* knows and understands:**

G.W7	the legal obligations with regard to confirmation of death
G.W12	the definition of unnatural death and sudden death and the differences between trauma and injury
G.W13	the legal basis and rules of conduct of the doctor during the examination of the body on crime scene and forensic examination of the body
G.W14	rules of forensic medical diagnostics and giving opinions in cases concerning infanticide and reconstruction of the circumstances of a road accident
G.W15, G.W37	the rules of forming up opinions as an witness expert in criminal cases
G.W16	the rules of forensic medical opinions regarding the ability to participate in procedural activities, biological effect of trauma and health loss
G.W18	the rules of collecting material for toxicological and hemogenetic research
G.W33	the rules and obligations applied to human cadavers
G.W35	issues related to serology and forensic genetics
G.W36	basics of forensic toxicology

**Skills– Graduate\* is able to:**

G.U7	to recognize the behavior and symptoms indicating the possibility of violence against a child
G.U9	collect blood for toxicological tests and material for genetic test

G.U28	evaluate postmortem changes
G.U30	asses the effects of facial and skull injuries in terms of criminal and civil proceedings

\* In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019 „graduate”, not student is mentioned.

5. ADDITIONAL EFFECTS OF LEARNING (non-compulsory)	
Number of effect of learning	Effects of learning i time
<b>Knowledge – Graduate knows and understands:</b>	
K1	
K2	
<b>Skills– Graduate is able to:</b>	
S1	
S2	
<b>Social Competencies – Graduate is ready for:</b>	
SC1	
SC2	

6. CLASSES		
Form of class	Class contents	Effects of Learning
Seminar	Introduction to Forensic Medicine. Educational contents: confirmation of death, medico-legal thanatology, post-mortem changes, forensic and hospital autopsy, procedures applied to bodies found at crime scene	G.W 7; G.W 12; G.W 13; G.W 15; G.W 33; G.W 37;
Seminar	Sudden natural death. Educational contents: sudden natural death due to different diseases, autopsy manifestations of different chronic diseases.	G.W 7; G.W 12; G.W15, G.W16; G.W 33; G.W 37;
Seminar	Asphyxia. Educational contents: mechanism of death, different types of asphyxia, autopsy findings in cases of asphyxia	G.W 33; G.W 37;
Seminar	Traumatology. Educational contents: different types of trauma and injuries (blunt force trauma, sharp force trauma, gunshot injuries, death in fire, electrocution, hypothermia)	G.W 16; G.W 33; G.W 37;
Seminar	Traffic injuries. Educational contents: traffic injuries, injuries of various types of road participants (pedestrians, car occupants, car drivers, bicyclists, motorcyclists).	G.W 14; G.W 33;
Seminar	Forensic toxicology. Educational contents: different types of toxins, toxicological examination in forensic medicine, autopsy findings in different types of fatal poisoning	G.W 16; G.W 36;

Seminar	Forensic genetics. Educational contents: basics of forensic genetics.	G.W 37;
Seminar	Child and sexual abuse. Educational contents: injuries indicating child abuse, examination of a rape victim.	G.W 7; G.W 9; G.W 16; G.W 35; G.U 7; G.U 9;
Seminar	Human identification. Educational contents: methods used for an identification of a person of unknown identity, examination of a body remains.	G.W 9; G.W 28; G.W 16; G.W 35;
Practical classes	Medico-legal autopsy of the dead	G.U 9; G.U 28; G.W 37;
Practical classes	Medico-legal autopsy of the dead	G.U 9; G.U 28; G.W 37;
Practical classes	Medico-legal autopsy of the dead	G.U 9; G.U 28; G.W 37;
Practical classes	Medico-legal autopsy of the dead	G.U 9; G.U 28; G.W 37;
Practical classes	Medico-legal autopsy of the dead	G.U 9; G.U 28; G.W 37;
Practical classes	Medico-legal autopsy of traumatic death.	G.U 28; G.U 30; G.W 16; G.W 37;
Practical classes	Medico-legal autopsy of traumatic death.	G.U 28; G.U 30; G.W 16; G.W 37;
Practical classes	Medico-legal autopsy of an unidentified body.	G.U 9; G.U 28; G.W 37;
Practical classes	Medico-legal examination of human body remains (determining the number of individuals, sex, age, stature, body weight, signs of trauma), forming opinion about cause of death.	G.U 9; G.U 28; G.W 16; G.W 35; G.W 37;

<b>7. LITERATURE</b>
<b>Obligatory</b>
<ol style="list-style-type: none"> <li>1. Handbook of Forensic Pathology V.J.M. DiMaio, S. E. Dana Taylor and Francis Group 2007.</li> <li>2. Simpson's Forensic Medicine R. Shepherd, Arnold 2003</li> </ol>
<b>Supplementary</b>
<ol style="list-style-type: none"> <li>1. Encyclopedia of Forensic Sciences J.A.Siegel, P.J. Saukko, 2013 Academic Press</li> <li>2. Forensic Analysis of the skull M.Y.Iscan, R.P. Helmer, Wiley-Liss</li> </ol>

8. VERIFYING THE EFFECT OF LEARNING		
Code of the course effect of learning	Ways of verifying the effect of learning	Completion criterion
G.W7; G.W12; G.W13; G.W14; G.W15, G.W16; G.W18; G.W33; G.W35; G.W36; G.W37;	Continuous assessment in the classroom - on seminars and practical classes, written reports, discussion.	Active participation in the class, 100% attendance (a maximum 2 day of absences during the course could be accepted, however absence on the seminars must be covered by writing an essay covering the topic of a seminar, and absence on autopsies (practical classes) - by assisting in additional autopsy after a regular teaching hours. Positive result of the MCQ test.
		Assessment: 2.0 (failed) - Final test result less than 66%. More than two day of absences during the course, no active participation in

		<p>seminar classes or classes, lack of basic knowledge in the field of thanatology, opinions and toxicological and genetic diagnostics in forensic medicine.</p> <p>3.0 (satisf.) - Final test result 66.01-74%. The condition of completing the course is attendance at all classes, participation in exercises and seminars and demonstrating skills in the medical and forensic issues covered by the curriculum at the basic level.</p> <p>3.5 (more than satisf.) - Final test result 74.01-80%. The condition for obtaining the grade is attendance at all classes, participation in exercises and seminars, and demonstrating skills in medical and forensic issues covered by the curriculum at a level above elementary.</p> <p>4.0 (good) - Final test result 80.01-88%. Active participation in exercises and seminars and demonstrating the skills of practical application of knowledge in forensic and medical opinions.</p> <p>4.5 (more than good) - Final test result 88.01-94%. Active participation in exercises and seminars as well as skills in the practical application of knowledge in forensic medical opinions in high level.</p> <p>5.0 (very good) - Final test result 94.01-100%. Active participation in exercises and seminars and demonstrating the skills of practical application of knowledge in forensic and medical opinion in very high level.</p>
--	--	---

**9. ADDITIONAL INFORMATION** (*information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club*)

1. All classes are held in Forensic Medicine Department facility at Ociski 1 St. in Warsaw.
2. Classes start at 8:30.
3. White coats for practical classes are provided by the Department, street shoes are accepted.
4. The use of mobile phones or other recording devices during forensic class **is strictly prohibited**.
5. A student can miss maximum two days of the course, however absence on each lecture **must be covered** by writing an essay covering the topic of a lecture, and absence on autopsy – by assisting in additional autopsy after regular teaching hours. Students can get credit and proceed to the final exam only after completing all Department's requirements.
6. If student's absences exceed limitations listed above, he/she is required to take a complete course with another group.
7. Examination grades are final, and we do not allow positive ratings to be improved.
8. Any comments or complaints regarding the final test are considered up to 5 working days after publishing the exam results – a visit to the teacher must be arranged before.
9. In case of failed exam the retake is an oral exam.

## 3. COURSE OBJECTIVES

O1	Gaining knowledge about pathophysiology, symptoms and signs, diagnostics tools and treatment methods for the most common eye disorders
O2	Acquiring the ability to perform Basic ophthalmologic examinations, diagnosing acute ophthalmological disorders and eye injuries
O3	Providing immediate first ophthalmological aid

**4. STANDARDS OF LEARNING – DETAILED DESCRIPTION OF EFFECTS OF LEARNING** (*concerns fields of study regulated by the Regulation of Minister of Science and Higher Education from 26 of July 2019; does not apply to other fields of study*)

**Code and number of effect of learning in accordance with standards of learning**

(*in accordance with appendix to Regulation of Minister of Science and Higher education from 26th of July 2019*)

**Effects in time**

**Knowledge – Graduate\* knows and understands:**

F.W11	1) treatment methods of the most common eye disorders, ophthalmological complications of systemic diseases with their ophthalmological symptomatology and proper procedures to be used in such cases, 2) ophthalmological complications of systemic diseases with their ophthalmological symptomatology and proper procedures to be used in such cases; 3) surgical treatment methods of common eye diseases, 4) Basic groups of medicines used in ophthalmology, their adverse effects and interactions, 5) groups of medicines for general use causing complications, as well as ophthalmological contraindications and the respective mechanism;
F.W3	rules of qualification and performance, as well as the most common complications of Basic surgical procedures and invasive diagnostic and therapeutic procedures;
F.W10 p.3	indications, contraindications and preparation of patients for particular types of imaging examinations and contraindications to the use of contrast agents;
F.W13 p.3	cranial-cerebral injuries,
F.W14	basic issue related to transplantology, indications for the transplantation of permanently impaired organs and tissues, as well as the related procedures;

**Skills– Graduate\* is able to:**

F.U19	perform ophthalmic screening tests;
F.U20	recognise ophthalmic conditions that require an immediate specialist aid and provide initial, qualified aid in the case of physical and chemical eye injuries;
F.U3	observe the rules of asepsis and antisepsis;

\* In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019, „graduate”, not student is mentioned.

**5. ADDITIONAL EFFECTS OF LEARNING (non-compulsory)**

Number of effect of learning	Effects of learning i time

## 8. VERIFYING THE EFFECT OF LEARNING

Code of the course effect of learning	Ways of verifying the effect of learning	Completion criterion
G.S1, G.S2, G.S3, G.S4, G.S6	Active participation in all seminars and classes.	Obligatory attendance and active participation in all seminars and classes.
G.S5, G.S7	Preparing a power-point presentations.	Presentation of case report.
G.K1, G.K2, G.K3	Execution of assigned tasks on the e-learning platform.	Execution of assigned tasks on the e-learning platform.
G.K1, G.K2, G.K3	Test at the end of the course .	3.0 (satisfactory).

### EVALUATION CRITERIA

Form of receiving credit in a subject

Grade	criteria
2.0 (failed)	<60% in SCT
3.0 (satisfactory)	<60-69% in SCT
3.5 (rather good)	70-75% in SCT
4.0 good	76-85% in SCT
4.5 more than good	86-89% in SCT
5.0 very good	>90% in SCT

## 9. ADDITIONAL INFORMATION *(information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club)*

At the first day of the course we meet at the entrance of the clinic (The Department of Endocrinology, Diabetology and Internal Medicine – Kondratowicza Street 8, building C, 7th floor) at 8:00 a.m. Then we present the detailed schedule of classes. Some seminars and classes may be conducted as e-learning, depending on epidemiological situation. From Tuesday students present case reports indicated by the teacher.

## Internal Medicine – Gastroenterology

<b>1. IMPRINT</b>	
<b>Academic Year</b>	2022/2023
<b>Department</b>	Faculty of Medicine
<b>Field of study</b>	<i>Medicine</i>
<b>Main scientific discipline</b> <i>(in accord with appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019)</i>	Medical Sciences
<b>Study Profile</b> <i>(general academic / practical)</i>	General academic
<b>Level of studies</b> <i>(1<sup>st</sup> level / 2<sup>nd</sup> level / uniform MSc)</i>	Uniform MSc
<b>Form of studies</b>	Full-time studies
<b>Type of module / course</b> <i>(obligatory / non-compulsory)</i>	Obligatory
<b>Form of verification of learning outcomes</b> <i>(exam / completion)</i>	Credit
<b>Educational Unit / Educational Units</b> <i>(and address / addresses of unit / units)</i>	Department of Gastroenterology and Internal Medicine (1WZ) Chair and Department of Gastroenterology and Internal Diseases SP CSK, 1A Banacha St., 02-097 Warsaw tel (+48 22) 599 28 38, fax (+48 22) 599 18 38, e-mail: klingast@wum.edu.pl Seminars - Block D, Ground Floor, Room no 23, at 8.00 every day. Practical Classes - at the Department, Block D, 3rd Floor.
<b>Head of Educational Unit / Heads of Educational Units</b>	Dr hab. n. med Adam Przybyłkowski

e-learning (e-L)		
Practical classes (PC)		
Work placement (WP)		
<b>Unassisted student's work</b>		
Preparation for classes and completions		30
		1,00

## 3. COURSE OBJECTIVES

O1	The goal of the program is to acquaint students with the prevention diagnosis and treatment of the basic problems in gastroenterology.
----	--

O2	During this program all students have e-learning seminars and case studies/practical classes (depending on epidemiological situation in Poland)
O3	If practical classes are held on the premises of the Department each group has an opportunity to take medical history, examine a patient and discuss all diagnostic tests (biochemical, imaging and endoscopic) with patient's physician. Also, all students have dedicated classes for the observation and participation during various diagnostic and therapeutic endoscopic procedures e.g. gastroscopy, ERCP, colonoscopy, sigmoidoscopy.

**4. STANDARDS OF LEARNING – DETAILED DESCRIPTION OF EFFECTS OF LEARNING** (*concerns fields of study regulated by the Regulation of Minister of Science and Higher Education from 26 of July 2019; does not apply to other fields of study*)

<b>Code and number of effect of learning in accordance with standard of learning</b> (in accordance with appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019)	E. W7.3, 9, 10; E. W23; E. W24; E. W28, E. U1; E. U3, E. U7; E.U13; E.U18; E.U21.; E.U24 ;E.U30; E. U32
--	--

**Knowledge – Graduate\* knows and understands:**

EW7 pkt. 3, 9 E.W23.E.W24.; E.W 28	Knows and understands the causes, symptoms, principles of diagnosis and therapeutic management in relation to the most common internal diseases occurring in adults and their complications; digestive system diseases including diseases of the oral cavity, oesophagus, stomach and duodenum, intestine, pancreas, biliary tract and gallbladder
E.W10; E.W23.E.W24.; E.W 28	Knows and understands the causes, symptoms, principles of diagnosis and therapeutic management in relation to the most common internal diseases occurring in adults and their complications: liver.

**Skills– Graduate\* is able to:**

E. U1; E. U3, E. U7; E.U30. 4	Assists in carrying out the following procedures and medical treatments: puncturing the peritoneal cavity
E.U13.E.U18; E.U21.; E.U24., E. U32	Has the ability to recognize and differentiate the common gastrointestinal diseases in adults. Has the ability to order the proper diagnostic tests and treatment.

\* In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019 „graduate”, not student is mentioned.

**5. ADDITIONAL EFFECTS OF LEARNING** (*non-compulsory*)

<b>Number of effect of learning</b>	<b>Effects of learning in time</b>
-------------------------------------	------------------------------------

**Knowledge – Graduate knows and understands:**

K1EW7 pkt. 3, 9 E.W23.E.W24.; E.W 28	Knows and understands the causes, symptoms, principles of diagnosis and therapeutic management in relation to the most common internal diseases occurring in adults and their complications; digestive system diseases including diseases of the oral cavity, oesophagus, stomach and duodenum, intestine, pancreas, biliary tract and gallbladder
---	--

E.W10; E.W23.E.W24.; E.W 28	Knows and understands the causes, symptoms, principles of diagnosis and therapeutic management in relation to the most common internal diseases occurring in adults and their complications: liver.
<b>Skills– Graduate is able to:</b>	
E. U1; E. U3, E. U7; E.U30. 4	Assists in carrying out the following procedures and medical treatments: puncturing the peritoneal cavity
<b>Social Competencies – Graduate is ready for:</b>	
E.U13E.U18; E.U21.; E.U24., E. U32	Has the ability to recognise and differentiate the common gastrointestinal diseases in adults. Has the ability to order the proper diagnostic tests and treatment.

<b>6. CLASSES</b>	
Form of class	Class contents
Lecture	<i>W1- Peptic ulcer disease, gastritis and stomach cancer - K-1, C-1</i>
Lecture	<i>W2- Inflammatory bowel diseases- - K-1, C-1</i>
Seminar	<i>S1 - Diagnostic Approach in GastroenterologyK-1, K-2, S-1, C-1</i>
Seminar	<i>S2- GI Bleeding K-1, C-1</i>
Seminar	<i>S3 - Peptic ulcer disease, gastritis and stomach cancer - K-1, C-1</i>
Seminar	<i>S4 - Diverticular Disease K-1, C-1</i>
Seminar	<i>S5 - Diseases of the Oesophagus and GERD K-1, C-1</i>
Seminar	<i>S6- Diseases of the Gallbladder and Bile Duct K-1, C-1</i>
Seminar	<i>S7 - Functional Disorders of GI Tract K-1, C-1</i>
Seminar	<i>S8 - Diarrhea and Malnutrition K-1, C-1</i>
Seminar	<i>S9 - Acute Pancreatitis K-1, C-1</i>
Seminar	<i>S10 - Chronic Pancreatitis K-1, C-1</i>
Seminar	<i>S11 - Colorectal Cancer K-1, C-1</i>
Seminar	<i>S12 - Acute and Chronic Liver Disease K-2, C-1</i>
Seminar	<i>S13 – Pancreatic Tumor K-2, C-1</i>
Seminar	<i>S14 - Cirrhosis and Its Complications, Liver Transplantation K-2, C-1</i>
Seminar	<i>S15 - Liver Cancer K-2, C-1</i>
Seminar	<i>S16 – Gastrointestinal Endoscopy</i>
Practical Classes/Online Case studies	<i>C1-5-Practical bedside classes with appointed teacher K-1, K-2, S-1, C-1</i>

<b>7. LITERATURE</b>
<b>Obligatory</b>
Harrison's Principles of Internal Medicine 20th Edition, Chapters on Gastroenterology and Diabetes
<b>Supplementary</b>
Harrison's Gastroenterology and Hepatology 3rd by Dan L. Longo, Anthony S. Fauci.

<b>8. VERIFYING THE EFFECT OF LEARNING</b>	
Code of the course effect of learning	Ways of verifying the effect of learning
	<i>This field defines the methods used for grading students e.g. pop quiz, test, written report etc.</i>
E. U1; E. U3, E.U7; E.U30. 4 E.U13E.U18; E.U21.; E.U24., E. U32	Active participation in all seminars and classes.
EW7 pkt. 3, 9 E.W23.E.W24.; E.W 28; E.W10; E.W23.E.W24.; E.W 28	Online single choice test Test will be assigned during the classes. Due date will be before the end of classes for each group.

<b>9. ADDITIONAL INFORMATION</b> ( <i>information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club</i> )
<p>Department of Gastroenterology and Internal Medicine website:  <a href="http://www.gastroenterologia.wum.edu.pl">www.gastroenterologia.wum.edu.pl</a></p> <p>Venue:  Chair and Department of Gastroenterology and Internal Diseases  SP CSK, 1A Banacha St.,  Seminars - Block D, Ground Floor, Room no 23, at 8.00 every day.  Practical Classes - at the Department, Block D, 3rd Floor.  Students who are not vaccinated won't be allowed to attend practical classes. Alternative, case-based classes based will be conducted in Block D, Ground Floor, Room no 23.</p> <p><i>Abridged Rules of Classes in The Department of Gastroenterology and Internal Medicine:</i></p> <p>Knowledge in anatomy, pathophysiology and pathology of gastrointestinal tract as well as credit in Introduction to Internal Medicine is required.</p> <p>Punctuality to seminars and practical classes is obligatory.</p> <p>Students are obligated to wear lab coats/scrubs, have stethoscope and student's ID on every classes.</p> <p>In case of single excused absence student should attend the class in a form discussed with appointed teacher.</p> <p>During the time of SARS-CoV-2 pandemic, there will be additional rules determined by university authorities.</p> <p>Detailed information about classes held in the Department of Gastroenterology and Internal Medicine are available on a board next to Department office. (SP CSK, Block D, 3rd Floor)</p>

## 3. COURSE OBJECTIVES

O1	The aim of the course is to achieve knowledge about the principles of diagnosis in relation to selected diseases of the kidneys and urinary tract
----	---

02	The aim of the course is to achieve knowledge about the principles of therapeutic management in relation to selected diseases of the kidneys and urinary tract

**4. STANDARDS OF LEARNING – DETAILED DESCRIPTION OF EFFECTS OF LEARNING** (concerns fields of study regulated by the Regulation of Minister of Science and Higher Education from 26 of July 2019; does not apply to other fields of study)

<b>Code and number of effect of learning in accordance with standards of learning</b> <i>(in accordance with appendix to Regulation of Minister of Science and Higher education from 26th of July 2019)</i>	<b>Effects in time</b>
--	------------------------

**Knowledge – Graduate\* knows and understands:**

E.W1	knows environmental and epidemiological determinants of the most common illnesses
E.W7, 5	knows and understands: reasons, symptoms, diagnostic and treatment procedures of the most frequent internal diseases and their complications in adult patients: 5) renal and urinary tract diseases, including acute and chronic renal failure, glomerulus and interstitial renal diseases, renal cysts, nephrolithiasis, urinary system infections, urinary system cancers, including bladder tumour and kidney cancer,
E.W10	Can provide differential diagnostics of the most common diseases in adult patients/ knows and understands: basic principles of pharmacotherapy in the elderly

**Skills– Graduate\* is able to:**

E.U1	collect medical history from adult patients
E.U3	conduct a complete and targeted physical examination in adults
E.U7	evaluate the general condition, the state of consciousness and awareness of a patient
E.U12	perform the differential diagnosis of the most common diseases in adults and children
E.U13	assess and describe the patient's somatic and psychological states
E.U14	recognise immediate threats to life
E.U16	plan diagnostic, therapeutic and preventive treatment
E.U17	analyse the side effects of particular medicines and interactions between them
E.U18	propose the individualisation of applicable therapeutic guidelines and alternative treatment in the case of ineffectiveness or contraindications to standard therapy

E.U20	qualify patients for home and hospital treatment
E.U24	interpret laboratory test results with the identification of reasons for deviation

\* In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019 „graduate”, not student is mentioned.

<b>5. ADDITIONAL EFFECTS OF LEARNING (non-compulsory)</b>	
<b>Number of effect of learning</b>	<b>Effects of learning i time</b>
<b>Knowledge – Graduate knows and understands:</b>	
K1	Can understand: the reasons, complains and diagnostic procedures of the basic internal diseases and their complications in adult patients
K2	Can plan diagnostic, therapeutic and prophylactic procedures
<b>Skills– Graduate is able to:</b>	
S1	Can interpret laboratory tests and identifies the causes of abnormal results
S2	Can plan specialist consultations.
<b>Social Competencies – Graduate is ready for:</b>	
SC1	
SC2	

<b>6. CLASSES</b>		
<b>Form of class</b>	<b>Class contents</b>	<b>Effects of Learning</b>
Lecture	Information on the most important disorders in nephrology 1. Acute renal injury 2. Chronic kidney disease	Knowledge on the most important disorders in nephrology E.W1, E.W7 p. 5, E.W10, K1, K2
Seminar	Information on important disorders in nephrology 1. Additional tests in nephrology 2. Anemia in chronic kidney disease 3. Neoplasm of kidney and urinary tract 4. Polycystic kidney disease 5. Bone and mineral disorders 6. Urinary tract infection 7. Glomerulonephritis 8. Nephrotic syndrome 9. Dialysis, renal transplantation 10. Natrium and potassium disorders	Knowledge on the important disorders in nephrology. E.W1, E.W7 p. 5, E.W10, K1, K2
Classes	Contact with the patients Training of practical, signs and symptoms assessment as well as diagnosis in nephrology	Knowledge on the practical aspects of clinical examination in nephrology

		E.U1, E.U3, E.U7, E.U12, E.U13, E.U14, E.U16, E.U17, E.U18, E.U20, E.U24, S1, S2.
--	--	---

<b>7. LITERATURE</b>
<b>Obligatory</b>
Nephrology in a nutshell, Schonermark et al.
<b>Supplementary</b>
Primer on Kidney Diseases, Greenberg et al Nephrology Secrets (fourth edition), Lerma EV et al., Elsevier, 2019

8. VERIFYING THE EFFECT OF LEARNING		
Code of the course effect of learning	Ways of verifying the effect of learning	Completion criterion
<i>e.g. G.K1, G.S1, K1</i>	<i>This field defines the methods used for grading students e.g. pop quiz, test, written report etc.</i>	<i>e.g. threshold number of points</i>
E.W1 E.W7 E.W10 E.U1 E.U3 E.U7 E.U12 E.U13 E.U14 E.U16 E.U17 E.U18 E.U20 E.U24	Final test (oral)	At least 50% correct answers. Detailed information will be given at the beginning of the course.
E.U1 E.U3 E.U7 E.U12 E.U13 E.U14 E.U16 E.U17 E.U18 E.U20 E.U24	Observation of student in terms of: active participation and correct execution of tasks, regular attendance at seminars and bedside classes.	Presence during classes and active participation confirmed by educator.

<b>9. ADDITIONAL INFORMATION</b> ( <i>information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club</i> )
<p>Lectures:</p> <ol style="list-style-type: none"> <li>Oct 25<sup>th</sup> 2022; 14<sup>50</sup>-16<sup>20</sup>; Paw. 01, ul. 2. BASIC INFORMATION				
Year and semester of study	V year, IX & X semester		Number of points ECTS	2.00
FORM OF CLASSES		Number of hours	Calculation of ECTS credits	
Contact hours with the academic teacher				
Lecture (W)		4	0,1	
Seminar (S)		16	0,8	
Classes (C)		10	0,7	
e-learning (e-L)				
Practical classes (ZP)				
professional practice (PZ)				
Student's individual work				
Preparation for classes and tests		10	0.4	

2. EDUCATIONAL OBJECTIVES	
C1	To familiarize students with the most common diseases of the endocrine glands, their course, diagnosis, differentiation and therapeutic management.
C2	Preparation students for final exams in internal medicine.
C3	Checking the skills and knowledge of students in endocrinology

3. EDUCATION STANDARD - DETAILED LEARNING OUTCOMES	
<b>E.W3.</b>	<b>Effects in the range:</b> learning and understanding the etiology and symptoms of the most common diseases of the endocrine glands, in particular diseases of the parathyroid, pituitary, thyroid, adrenal glands and gonads, occurring in adults and their complications
<b>E.W7.</b>	understanding the pathomechanism of metabolic disorders in endocrine diseases, learning about diagnostic schemes and interpreting the results of additional examinations and functional tests as well as the principles of treating diseases of endocrine glands.
Knowledge - the Graduate * knows and understands:	
A.W1	
A.W2	
Skills - The graduate * is able to:	
A.U1	The ability to conduct differential diagnosis, interpret the results of additional tests, perform diagnostic tests and keep medical records in endocrinology
A.U2	Will be able to collect anamnesis and physical examination of patients with diseases of the internal secretion organs

\* In the appendices to the Ordinance of the Minister of Science and Higher Education of July 26, 2019, there is a mention of a "graduate" and not a student

4. OTHER LEARNING OUTCOMES (optional)
They are not planned

5. CLASSES		
Form of classes	Program content	Learning outcomes
Partial (optional) and final tests	Checking students' knowledge, discussing questions and clarifying doubts about them	<b>E.W1.,E.W7.</b>

Seminars	Discussing the most common endocrine diseases, their pathogenesis, diagnosis and therapy	E.W1.,E.W7., E.U1., E.U3., E.U7., E.U12., E.U24.
Practical classes	Presentation of endocrine patients by assistants	E.W1.,E.W7., E.U1., E.U3., E.U7., E.U12., E.U24.
Remote presentation of cases by lecturers	On-line presentation of cases of endocrine patients	E.W1.,E.W7., E.U1., E.U3., E.U7., E.U12., E.U24.
Presentations of patients by graduates	Presentation and discussion of endocrine patients by graduates	E.W1.,E.W7., E.U1., E.U3., E.U7., E.U12., E.U24.
Discussion of a clinical case by the student - homework	Detailed reference to the given case and answers to the questions asked on the e-learning platform	E.W1.,E.W7., E.U1., E.U3., E.U7., E.U12., E.U24.

<b>6. LITERATURE</b>
<b>Obligatory:</b>
Basic & Clinical Endocrinology ed FS Greenspan, DG Gardner Harrison's Principles of Internal Medicine
<b>Supplementary</b>

<b>7. MEANS OF VERIFICATION OF LEARNING OUTCOMES</b>		
Symbol of the subject learning outcome	Ways of verifying the learning effect	Passing criterion
<i>Np. A.W1, A.U1, K1</i>	<p>1. Homework: 3 homework during a weekly block of classes placed on the e-learning platform <a href="https://e-learning.wum.edu.pl/">https://e-learning.wum.edu.pl/</a>, assessed on a 0-100% scale. the work must be presented in electronic form on the e-learning platform within a strictly defined period of time.</p> <p>2. Team presentation (max. 5 students) of a clinical case presentation in the form of a clinical presentation or by electronic means - assessed on a scale from 0 - 100% at one time. The presentation should include: clinical examination, initial diagnosis, differential diagnosis, analysis. The contribution of the work to preparation of the presentation will be determined by students from a given subgroup.</p> <p>3. Final written test - Multiple-choice test - 20 questions assessed on a 0-100% scale The student receives 1 point for each correct answer. The maximum possible number of points from the final test depends on the type of questions and the number of correct answers to each of them in a given test, therefore it may be variable and differ for subsequent groups of students. The minimum number of correct answers to pass the final test is 50%. Passing the final test is a required condition for successfully passing the entire block. The final grade at the end of the class is derived from:</p> <ul style="list-style-type: none"> <li>• 60% - the result of the final test</li> <li>• 20% - average homework score</li> </ul>	<p><i>pass threshold - above 50% grade for achievement (3) - 51-64%</i></p> <p><i>(3.5) - 65-70%</i></p> <p><i>good grade (4) - 71-85%</i></p> <p><i>(4.5) - 85-89%</i></p> <p><i>very good rating (5) - 90-100%</i></p>

	<ul style="list-style-type: none"> <li>• 20% - the result of the case presentation</li> </ul> <p>In the event of an unsatisfactory grade, the student is entitled to a second date, i.e. another credit card, before his / her assistant with whom he / she was taking classes.</p> <p>One can get credit for:</p> <ol style="list-style-type: none"> <li>1. By writing a written test with the next exercise group</li> <li>2. In exceptional circumstances (no other group, no appropriate date, etc.) - presentation of an additional clinical case</li> </ol>	

**8. ADDITIONAL INFORMATION** (*information important from the point of view of teachers, not included in the rest of the syllabus, e.g. whether the subject is related to research, detailed description of the exam, information about the scientific/research circle*)

The weekly series of classes consists of 20 seminars and 10 lesson hours of practical classes or case presentations in a remote-electronic form

The content of the seminars is available on the website: <https://e-learning.wum.edu.pl/>

- S1. Hypopituitarism
- S2. Active and non-active pituitary adenomas
- S3. Primary hyperthyroidism and hypothyroidism
- S4. Nodular disease of the thyroid gland
- S5. Adrenal insufficiency
- S6. Cushing's syndrome
- S7. Neuroendocrine tumors and multi-glandular neoplastic syndromes
- S8. Disorders of parathyroid function and calcium-phosphate metabolism
- S9. Obesity and lipid disorders
- S10. Emergences in endocrinology

**9. Lectures**

Two lectures will be presented :

Lectures:

1. Nov. 29<sup>th</sup> 2022; 14<sup>50</sup>-16<sup>20</sup>; Paw. 01, ul. Pawińskiego 7
2. Dec. 06<sup>th</sup> 2022; 14<sup>50</sup>-16<sup>20</sup>; Paw. 01, ul. Pawińskiego 7

## Neurosurgery

<b>1. IMPRINT</b>	
<b>Academic Year</b>	2022/2023
<b>Department</b>	Faculty of Medicine
<b>Field of study</b>	Medicine

## 2. BASIC INFORMATION

<b>Year and semester of studies</b>	5 year, 10 semester	<b>Number of ECTS credits</b>	2.00
<b>FORMS OF CLASSES</b>		<b>Number of hours</b>	<b>ECTS credits calculation</b>
<b>Contacting hours with academic teacher</b>			
Lecture (L)			
Seminar (S)		10	0.25
Classes (C)		20	1.0
e-learning (e-L)			
Practical classes (PC)			
Work placement (WP)			
<b>Unassisted student's work</b>			
Preparation for classes and completions		20	0.75

## 3. COURSE OBJECTIVES

O1	To get acquainted with medical issues in the diagnosis and therapeutic methods in Neurosurgical Department.
O2	Acquiring additional knowledge and competence to solve neurosurgical problems.
O3	Obtaining additional competence in diagnosis and therapy.

**4. STANDARDS OF LEARNING – DETAILED DESCRIPTION OF EFFECTS OF LEARNING** (*concerns fields of study regulated by the Regulation of Minister of Science and Higher Education from 26 of July 2019; does not apply to other fields of study*)

<b>Code and number of effect of learning in accordance with standards of learning</b> <i>(in accordance with appendix to Regulation of Minister of Science and Higher education from 26th of July 2019)</i>	<b>Effects in time</b>
--	------------------------

**Knowledge – Graduate\* knows and understands:**

F.W13	causes, symptoms, principles of diagnosis and therapeutic treatment in the case of the most common diseases of the central nervous system in terms of:
F.W15	principles of suspecting and recognising the brain death

**Skills– Graduate\* is able to:**

F.U22	assess an unconscious patient according to the international point scales
F.U3	observe the rules of asepsis and antisepsis
F.U12	monitor perioperative care with the aid of basic vital signs
F.U21	assess an unconscious patient according to the international point scales

\* In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019 „graduate”, not student is mentioned.

**5. ADDITIONAL EFFECTS OF LEARNING** (*non-compulsory*)

<b>Number of effect of learning</b>	<b>Effects of learning i time</b>
-------------------------------------	-----------------------------------

**Knowledge – Graduate knows and understands:**

K1	
K2	

**Skills– Graduate is able to:**

S1	
----	--

S2	
<b>Social Competencies – Graduate is ready for:</b>	
SC1	
SC2	

<b>6. CLASSES</b>		
<b>Form of class</b>	<b>Class contents</b>	<b>Effects of Learning</b>
SEMINARS & CLASSES	<p><b>S1 – Seminar 1.</b>  <i>Topic: Introduction of Neurosurgical Department.</i>  <b>Intracranial volume – pressure relationships. Monroe – Kellie rule.</b>  <i>Symbol of learning outcome/s: W1</i></p> <p><b>C1-Practical Class 1.</b>  <i>Topic: Case presentations and neurosurgical symptoms intracranial volume – pressure relationships.</i>  <i>Symbol of learning outcome/s: W1, U1, U2</i></p> <p><b>S2 – Seminar 2.</b>  <i>Topic: Neurotraumatology.</i>  <i>Symbol of learning outcome/s: W2, W7</i></p> <p><b>C2-Practical Class 2.</b>  <i>Topic: Case presentations craniocerebral injuries. Neurosurgical Symptoms.</i>  <b>Diagnostic procedures. Treatment</b></p> <p><b>S3 – Seminar 3.</b>  <i>Topic: Neurooncology in Neurosurgery.</i>  <i>Symbol of learning outcome/s: W3</i></p> <p><b>C3-Practical Class 3.</b>  <i>Topic: Case presentations. Neurosurgical Symptoms. Diagnostic procedures.</i>  <b>Treatment Neurooncology in Neurosurgery.</b>  <i>Symbol of learning outcome/s: W3, U1,U2,U3.</i></p> <p><b>S4 – Seminar 4.</b>  <i>Topic: Vascular Diseases in Neurosurgery. Intracranial bleeding. Intracranial Aneurysm. Angiomas (AVMs). Diagnostic procedures. Surgical vs endovascular aspects of treatment in Neurosurgery.</i>  <i>Symbol of learning outcome/s: W4</i></p> <p><b>C4-Practical Class 4.</b>  <i>Topic: Case presentations. Neurosurgical Symptoms. Diagnostic procedures.</i>  <b>Treatment Vascular Diseases in Neurosurgery.</b>  <i>Symbol of learning outcome/s: W4, U1,U2,U3,U4.</i></p> <p><b>S5 – Seminar 5.</b>  <i>Topic: Disorders of the circulation of cerebrospinal fluid - spinal /Hydrocephalus/.</i>  <i>Symbol of learning outcome/s: W5</i></p> <p><b>C5-Practical Class 5.</b>  <i>Topic: Case presentations. Diagnosis and treatment options hydrocephalus.</i>  <i>Symbol of learning outcome/s: W5, U2, U3</i></p>	

	<p><b>S6 – Seminar 6.</b>  <i>Topic: Degeneration disc disease. Degenerative spine disease. Recapitulation Head of the Department.</i>  <i>Symbol of learning outcome/s: W6</i></p> <p><b>C6-Practical Class 6.</b>  <i>Topic: Case presentations degeneration disc disease and degenerative spine disease. Pathology and treatment neurosurgery.</i>  <i>Symbol of learning outcome/s: W6, U2</i></p>	
--	--	--

<b>7. LITERATURE</b>
<b>Obligatory</b>
<b>Supplementary</b>

<b>8. VERIFYING THE EFFECT OF LEARNING</b>		
Code of the course effect of learning	Ways of verifying the effect of learning	Completion criterion
	Practical skills examination	Positive evaluation of the teaching assistant
	Final colloquium ( 30 MCQ test questions).	threshold number of points - 30 good answers
	Final exam in winter/ spring exam session ( 100 MCQ)	<p><b>2.0 (failed)</b> 0-17 points from the test</p> <p><b>3.0 (satisfactory)</b> 18-20 points from the test</p> <p><b>3.5 (rather good)</b> 21-22 points from the test</p> <p><b>4.0 (good)</b> 23-25 points from the test</p> <p><b>4.5 (more than good)</b> 26-28 points from the test</p> <p><b>5.0 (very good)</b> 29-30 points from the test</p>

<b>9. ADDITIONAL INFORMATION</b> <i>(information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club)</i>

## Pediatric Nephrology

### 1. IMPRINT

<b>Academic Year</b>	2022/2023

2. BASIC INFORMATION				
Year and semester of studies	V year, 9 & 10 semester		Number of ECTS credits	2.00
FORMS OF CLASSES		Number of hours	ECTS credits calculation	
Contacting hours with academic teacher				
Lecture (L)		5	0.1	
Seminar (S)		10	0.5	
Classes (C)		15	1.0	
e-learning (e-L)				
Practical classes (PC)				
Work placement (WP)				
Unassisted student's work				
Preparation for classes and completions		10	0.4	

<b>3. COURSE OBJECTIVES</b>	
O1	The aim of the course is to achieve and preserve knowledge about the principles of the assesment, differrential diagnosis and treatment of the disease within the following areas of Pediatrics: Pediatric Nephrology
O2	
O3	

**4. STANDARDS OF LEARNING – DETAILED DESCRIPTION OF EFFECTS OF LEARNING** (*concerns fields of study regulated by the Regulation of Minister of Science and Higher Education from 26 of July 2019; does not apply to other fields of study*)

<b>Code and number of effect of learning in accordance with standards of learning</b> <i>(in accordance with appendix to Regulation of Minister of Science and Higher education from 26th of July 2019)</i>	<b>Effects in time</b>
--	------------------------

**Knowledge – Graduate\* knows and understands:**

G.K1/ E.W1	Knowledge of environmental and epidemiological circumstances of the most often seen diseases within the following areas of Pediatrics: Pediatric Nephrology/ E.W1: environmental and epidemiological determinants of the most common illnesses
G.K2/ E.W3, 6	Basic knowledge of pediatric nephrology: development, structure and function of kidneys, structural abnormalities of urinary tract, urinary tract infection, nephrotic syndrome and glomerulonephritis, nephropathies: SLE, Henoch-Schonlein syndrome and others, urolithiasis, hemolytic- uremic syndrome, acute kidney injury, chronic kidney disease with renal replacement therapy/ E.W3, 6: causes, symptoms, principles of diagnosis and therapeutic treatment of the most common diseases in children: urinary system infections, congenital defects of the urinary system, nephrotic syndrome, nephrolithiasis, acute and chronic renal failure, acute and chronic renal inflammations, systemic renal diseases, urination disorders, vesicoureteral reflux

**Skills– Graduate\* is able to:**

G.S1	Ability to make a diagnosis, based on child's medical history, findings in physical examination along with additional tests and images
G.S2	Ability to differentiate abnormal findings in anamnesis and physical examination within following areas of Pediatric Nephrology
E.U2	collect medical history from a child and its family
E.U4	conduct a physical examination of children of any age
E.U7	evaluate the general condition, the state of consciousness and awareness of a patient
E.U9	compare percentile charts with anthropometric and blood pressure measurements
E.U10	evaluate the grade of sexual development
E.U12	perform the differential diagnosis of the most common diseases in adults and children
E.U13	assess and describe the patient's somatic and psychological states
E.U14	recognise immediate threats to life
E.U15	recognise states under the influence of alcohol, drugs and other stimulants
E.U16	plan diagnostic, therapeutic and preventive treatment
E.U17	analyse the side effects of particular medicines and interactions between them
E.U18	propose the individualisation of applicable therapeutic guidelines and alternative treatment in the case of ineffectiveness or contraindications to standard therapy

E.U20	qualify patients for home and hospital treatment
E.U21	recognise the conditions in which life expectancy, functional patient state or preferences limit the treatment according to the guidelines for a given disease
E.U24	interpret laboratory test results with the identification of reasons for deviation
E.U25	use feeding protocols (enteral and parenteral)
E.U27	qualify a patient for vaccinations
E.U32	plan specialist consultations

\* In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019 „graduate”, not student is mentioned.

<b>5. ADDITIONAL EFFECTS OF LEARNING (non-compulsory)</b>	
<b>Number of effect of learning</b>	<b>Effects of learning i time</b>
<b>Knowledge – Graduate knows and understands:</b>	
K1	Importance of profound analysis of pediatric patient problems
K2	Use of objective sources of medical knowledge/ sciences
<b>Skills– Graduate is able to:</b>	
S1	Have a good contact with patients and parents
S2	Understand different background of patients and their parents
<b>Social Competencies – Graduate is ready for:</b>	
SC1	Cooperate in a group of professionals in a proces of diagnosis and treatment
SC2	Be responsible for decisions in a therapeutic process

<b>6. CLASSES</b>		
<b>Form of class</b>	<b>Class contents</b>	<b>Effects of Learning</b>
Lectures	Congenital anomalies of the kidney and the urinary tract Kidney involvement in systemic disease Urolithiasis	E.W1, E.W3 p. 6

Seminars	Acute kidney injury Chronic kidney disease Nephrotic syndrome Glomerulonephritis CAKUT Hypertension Urinary bladder disturbances Hematuria Hemolytic uremic syndrome Laboratory investigation and diagnostic imaging in Nephrology	E.W1, E.W3 p. 6, G.S1, G.S2, E.U2, E.U4, E.U7, E.U9, E.U10, E.U12, E.U13, E.U14, E.U15, E.U16, E.U17, E.U18, E.U20, E.U21, E.U24, E.U25, E.U27, E.U32  During the seminars teachers will check understanding of the topic problems
Classes	Practical bedside classes with appointed teacher	G.S1, G.S2, E.U2, E.U4, E.U7, E.U9, E.U10, E.U12, E.U13, E.U14, E.U15, E.U16, E.U17, E.U18, E.U20, E.U21, E.U24, E.U25, E.U27, E.U32  Evaluate the practical knowledge of physical examination and analysis of symptoms

## 7. LITERATURE

### Obligatory

Nelson Essentials of Pediatrics, 8th ed, Marcdante K, Kliegman RM, Elsevier Health Sciences, 2018

### Supplementary

Nelson Textbook of Pediatrics, 20th ed, Kliegman RM W.B. Saunders Company 2015

## 8. VERIFYING THE EFFECT OF LEARNING

Code of the course effect of learning	Ways of verifying the effect of learning	Completion criterion
<i>e.g. G.K1, G.S1, K1</i>	Active participation in lectures and seminars Oral colloquium or test	At least satisfactory acquisition of outcomes corresponding to the subject
	Bedside classes	At least satisfactory acquisition of abilities in bedside classes according to the direct teacher's assessment

## 9. ADDITIONAL INFORMATION *(information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club)*

White coat and footwear change is required during bedside classes

## Pediatrics Hematology and Oncology

## 3. COURSE OBJECTIVES

O1	The aim of the course is to achieve knowledge about the principles of the assessment, differential diagnosis and treatment of hematological and oncological disorders of childhood.
----	---

O2	
O3	

**4. STANDARDS OF LEARNING – DETAILED DESCRIPTION OF EFFECTS OF LEARNING (concerns fields of study regulated by the Regulation of Minister of Science and Higher Education from 26 of July 2019; does not apply to other fields of study)**

Code and number of effect of learning in accordance with standards of learning (in accordance with appendix to Regulation of Minister of Science and Higher education from 26th July 2019)	Effects in time
--	-----------------

Knowledge – Graduate\* knows and understands:

G.K1	Knowledge of environmental and epidemiological circumstances of the most often seen diseases within the following areas of pediatric hematology and oncology
G.K2	Basic knowledge of pediatric hematology and oncology: anemia in children, hemophilia, lymphadenopathy, hemorrhagic diathesis, thrombosis in children, neutropenia in children, leukemia, solid tumors in children, transfusion of blood products
E.W1	environmental and epidemiological determinants of the most common illnesses
E.W3, 4	causes, symptoms, principles of diagnosis and therapeutic treatment of the most common diseases in children: 4. anaemia, bleeding diatheses, marrow failure, cancers in children, including solid tumours typical of childhood
E.W4	the following terms: battered child, sexual harassment, mental retardation, conduct disorders: psychoses, addictions, eating and excretion disorders in children

Skills– Graduate\* is able to:

G.S1	Ability to make a diagnosis based on child's medical history, findings in physical examination along with additional tests and imaging.
G.S2	Ability to differentiate abnormal findings in anamnesis and physical examination within following areas of pediatric hematology and oncology.
E.U2	collect medical history from a child and its family
E.U4	conduct a physical examination of children of any age
E.U6	conduct an explanatory examination of hearing and the field of vision, as well as an otoscopic examination
E.U7	evaluate the general condition, the state of consciousness and awareness of a patient
E.U9	compare percentile charts with anthropometric and blood pressure measurements
E.U10	evaluate the grade of sexual development
E.U12	perform the differential diagnosis of the most common diseases in adults and children

E.U20	qualify patients for home and hospital treatment
E.U24	interpret laboratory test results with the identification of reasons for deviation
E.U27	qualify a patient for vaccinations

\* In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019 „graduate”, not student is mentioned.

5. ADDITIONAL EFFECTS OF LEARNING (non-compulsory)	
Number of effect of learning	Effects of learning i time
Knowledge – Graduate knows and understands:	
K1	
K2	
Skills– Graduate is able to:	
S1	
S2	
Social Competencies – Graduate is ready for:	
SC1	
SC2	

6. CLASSES		
Form of class	Class contents	Effects of Learning
Lectures	Aquired aplastic anemia Hematopoietic stem cell transplantation in children Bone marrow insufficiency in children	<a href="#">E.W.1</a> <a href="#">E.W.3</a> <a href="#">E.W.4</a>
Seminars	Anemia in children Lymphadenopathy Hemophilia Other hemorrhagic diathesis in children Lymphoma in children Leukemia in children Thrombosis in children Neutropenia in children Solid tumors in children Hemophagocytic syndrome	<a href="#">E.W.1</a> <a href="#">E.W.3</a> <a href="#">E.W.4</a>

Bedside classes	Training of practical, signs and symptoms assessment as well as diagnosis in pediatric hematology and oncology	E.U.2, E.U.4, E.U.6, E.U.7, E.U.9, E.U.10, E.U.12, E.U.20, E.U.24, E.U.27
-----------------	--	---

7. LITERATURE	
Obligatory	
1.	Nelson Essentials of Pediatrics, 7 <sup>th</sup> ed, Marc dante K, Kliegman RM; W.B. Saunders Company, 2015
2.	Illustrated Text book of Pediatrics, 4 <sup>th</sup> ed, Lissauer T, Clayden G; Mosby Ltd., 2012
Supplementary	
1.	Nelson Textbook of Pediatrics, 20 <sup>th</sup> ed, Kliegman, Stanton, St.Geme, Schor; W.B. Saunders Company, 2015

8. VERIFYING THE EFFECT OF LEARNING		
Code of the course effect of learning	Ways of verifying the effect of learning	Completion criterion
e.g. G.K1, G.S1, K1	Active participation in seminars, lecture, rounds in oncology division. Oral colloquium	At least satisfactory acquisition of outcomes corresponding to the subject
	Bedside classes	At least satisfactory acquisition of abilities in bedside classes according to the direct teacher's assessment.

9. ADDITIONAL INFORMATION (information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club)
E-learning depending on the epidemiological situation.

## Obstetrics and gynecology

**3. COURSE OBJECTIVES**

O1	To obtain the theoretical knowledge on physiology and pathology of the pregnancy and the delivery as well as physiopathology of the neonatal period.
O2	To obtain practical ability of obstetrical examination of women during pregnancy, labor and puerperium.
O3	To obtain practical ability in management of normal and complicated delivery.
O4	To gain basic training in management of obstetrical emergencies.
O5	To gain basic knowledge about endocrinology.
O6	To gain practical basic skills in field of obstetrics.

**4. STANDARDS OF LEARNING – DETAILED DESCRIPTION OF EFFECTS OF LEARNING** (*concerns fields of study regulated by the Regulation of Minister of Science and Higher Education from 26 of July 2019; does not apply to other fields of study*)

**Code and number of effect of learning in accordance with standards of learning**  
(*in accordance with appendix to Regulation of Minister of Science and Higher education from 26th of July 2019*)

**Effects in time**

**Knowledge – Graduate\* knows and understands:**

G.K1	F.W9.2 Student is able to diagnose and monitor physiological and pathological pregnancy.
G.K2	F.W9.3 Student is able to diagnose and monitor physiological and pathological delivery.
G.K3	F.W9.3 Student knows the puerperium development and complications during puerperium.
G.K4	F.W9.1 Student is able to diagnose menstrual cycle and its disorders.

**Skills– Graduate\* is able to:**

G.S1	F.U15 Student is able to interpret CTG monitoring.
G.S2	F.U13, F.U14, F.U16 Student is able to recognize high risk pregnancy.
G.S3	F.U17 Student is able to examine patient in puerperium.
G.S4	F.U18 Student knows indications and contraindications to use contraceptives.

\* In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019 „graduate”, not student is mentioned.

**5. ADDITIONAL EFFECTS OF LEARNING** (*non-compulsory*)

**Number of effect of learning**

**Effects of learning i time**

**Knowledge – Graduate knows and understands:**

K1	Student respects medical confidentiality and patient’s rights.
----	--

**Skills– Graduate is able to:**

S1	Student is guided by the good of the patients, putting them in the foreground.
----	--

**Social Competencies – Graduate is ready for:**

SC1	Able to establish and maintain a deep and respectful contact with the patient.
-----	--

**6. CLASSES**

Form of class	Class contents	Effects of Learning
Seminar (S)	S1. Diagnosis of the pregnancy. Physiological changes during pregnancy development. Methods of electronic (CTG,USG) and biochemical monitoring in pregnancy and labour. S2. Pregnancy in diabetic woman. Liver diseases in pregnancy. S3. Uterine function disorders: atony- diagnosis & treatment. Rupture of the uterus. Post-term pregnancy and induction of labour. S4. Haemostasis and coagulation disorders in pregnancy. Shock in obstetrics. Premature ablation of the placenta. Intrauterine fetal death. Amniotic fluid embolus. S5. Physiopathology of the newborn. S6. Abortion- classification, diagnosis and treatment. Incompetent cervix- diagnosis and treatment. Premature labour- treatment. The puerperium- normal changes and complications. S7. Rh incompatibility. Life threatening and emergency cases in obstetrics. S8. Heart diseases in pregnancy. Anaemia in pregnancy. Infectious diseases in pregnancy. Physiotherapy in obstetrics. S9. PIH and Eclampsia. Urinary tract infections in pregnancy. S10. Management of normal vaginal delivery. Breech presentation. Abnormal position and lie of fetus. Use of forceps and vacuum.	G.K1, G.S1  G.K1, G.S2 G.K1, G.K2, G.S2  G.K1, G.K2, G.S2  G.K1, G.K2, G.S2, G.S3  G.K1, G.S2  G.K1, G.K2, G.S2 G.K1, G.S2 G.K4, G.S4
Classes (C)	Clinical practice in wards, practical classes with phantom demonstrations	G.S1-G.S4
e-learning (e-L)	Optional synchronous learning and asynchronous learning in online education via e-learning.wum.edu.pl, Microsoft Teams, Zoom (seminars only)	

## 7. LITERATURE

### Obligatory

1. Llewelyn- Jones D.: "Fundamentals of Obstetrics and Gynaecology" Elsevier Limited, 2017.

### Supplementary

- Contemporary student's textbook of obstetrics and gynaecology edited in United States or the United Kingdom may be accepted.
- Crash Course 4<sup>th</sup> Edition, Obstetrics and Gynaecology. Elsevier Limited, 2019.
- Brian A. Magowan. Clinical Obstetrics and Gynaecology. 4<sup>th</sup> Edition. Elsevier Limited 2019.
- Kate V. Meriwether. Obstetrics and Gynaecology Morning Report. Elsevier 2018.
- Hao-Hua Wu. Gunner Googles. Augmented 1<sup>st</sup> Edition. Obstetrics and Gynaecology. Elsevier 2019.
- John Guillebaud. 7<sup>th</sup> Edition Contraception. Elsevier 2017.

## 8. VERIFYING THE EFFECT OF LEARNING

Code of the course effect of learning	Ways of verifying the effect of learning	Completion criterion
e.g. G.K1, G.S1, K1	<i>This field defines the methods used for grading students e.g. pop quiz, test, written report etc.</i>	<i>e.g. threshold number of points</i>
G.K1- G. K4; G.S1- G.S4; K1, S1; SC1	Complete the entire course and attendance at all classes with the exception of one permitted absence during the course. Student's presence confirmed in the student's card (S+PC) + examination of pregnant patient + MCQ test.	Normal Distribution (Gaussian Distribution)

**9. ADDITIONAL INFORMATION** (*information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club*)

1. The student is obliged to read the syllabus and time- table on the notice board in the department.
2. The student participate in classes (seminars and practice) only with the group. Possible group change is allowed in exceptional, justified situations and requires individual approval (anna.wnuk@wum.edu.pl)
3. The student is obliged to follow the Medical University of Warsaw Regulations (available on the University's website).
4. During classes with patients, students keep seriousness and silence.
5. Meals and drinks should be consumed during breaks.

## Surgery

1. IMPRINT	
Academic Year	2022/2023
Department	Faculty of Medicine
Field of study	Medicine
Main scientific discipline (in accord with appendix to the Regulation Minister of Science and Higher education from 26th of July 2019)	Medical science
Study Profile (general academic / practical)	General academic
Level of studies (1 <sup>st</sup> level /2 <sup>nd</sup> level/ uniform MSc)	Uniform MSc
Form of studies	full-time studies
Type of module / course (obligatory / non-compulsory)	obligatory
Form of verification of learning outcomes (exam / completion)	completion
Educational Unit / Educational Units (and address / addresses of unit / units)	2nd Department of General, Vascular and Oncological Surgery Stępińska 19/25, 00-739 Warszawa
Head of Educational Unit / Heads of Educational Units	Mariusz Frączek MD, PhD
Course coordinator (title, First Name, Last Name, contact)	M. Polańska- Płachta MD, PhD, eustacha2@gmail.com Ł. Kaczorowski MD, lukasz.m.kaczorowski@gmail.com

<b>Person responsible for syllabus</b> <i>(First name, Last Name and contact for the person to whom any objections concerning syllabus should be reported)</i>	<b>M. Polańska- Płachta MD, PhD, eustacha2@gmail.com</b> <b>Ł. Kaczorowski MD, lukasz.m.kaczorowski@gmail.com</b>
<b>Teachers</b>	<b>L. Al-Hamdani MD, M. Burdzel MD, K. Cybula MD, M. Czerwińska MD, M. Frączek MD PhD, Ł. Kaczorowski MD, A. Kwiatkowska MD, Sz. Lelas MD, Ł. Masior MD PhD, A. Obcowska-Hamerska MD PhD, A. Pomianowska MD, M. Polańska-Płachta MD PhD, Jerzy A. Polański MD PhD, M. Szczotko MD, M. Wyleżoł MD, PhD, S. Ziemka MD.</b>

<b>2. BASIC INFORMATION</b>			
<b>Year and semester of studies</b>	5 <sup>th</sup> year, winter/spring semester	<b>Number of ECTS credits</b>	7.00
<b>FORMS OF CLASSES</b>		<b>Number of hours</b>	<b>ECTS credits calculation</b>
<b>Contacting hours with academic teacher</b>			
Lecture (L)		0	0
Seminar (S)		35	2,3
Classes (C)		65	4,7
e-learning (e-L)		0	0
Practical classes (PC)		0	0
Work placement (WP)		0	0
<b>Unassisted student's work</b>			
Preparation for classes and completions			

<b>3. COURSE OBJECTIVES</b>	
O1	Student takes medical history. Student assesses general condition of the patient, their consciousness and awareness. Student describes patient's somatic complaints. Student performs full medical examination. Student makes differential diagnosis.
O2	Student knows and understands signs and symptoms, diagnosis and management of the most common diseases that require surgical treatment
O3	Student knows indications, complications of the most common types of surgeries
O4	Student assists in typical surgery. Student is able to use basic surgical tools. Student obeys to rules of asepsis and antysepsis. Student knows safety rules of preoperative and postoperative patient's management.
O5	Student participates in basic medical procedures.

**4. STANDARDS OF LEARNING – DETAILED DESCRIPTION OF EFFECTS OF LEARNING** (*concerns fields of study regulated by the Regulation of Minister of Science and Higher Education from 26 of July 2019; does not apply to other fields of study*)

<b>Code and number of effect of learning in accordance with standards of learning</b>  <i>(in accordance with appendix to Regulation of Minister of Science and Higher education from 26th July 2019)</i>	<b>Effects in time</b>
---	------------------------

**Knowledge – Graduate\* knows and understands:**

F.W1	Student knows and understands signs and symptoms, diagnosis and management of the most common diseases that require surgical treatment:  a) Acute and chronic abdominal diseases b) Thoracic diseases c) Head trauma d) Politrauma
F.W3	Student knows indications, complications of the most common types of surgeries
F.W4, F.W5	Student knows safety rules of preoperative and postoperative patient's management.

**Skills– Graduate\* is able to:**

E.U1, F.W1, F.W10, F.W13	Student takes medical history. Student assesses general condition of the patient, their consciousness and awareness. Student describes patient's somatic complaints.
E.U3, F.U6	Student performs full medical examination.
F.W10, F.W13, E.U16	Student makes differential diagnosis.
F.U1	Student assists in typical surgery.
F.U2	Student is able to use basic surgical tools.
F.U3	Student obeys to rules of asepsis and antysepsis.
F.U5, F.U12, F.U21, F.U22, E.U7, E.U29	Student participates in basic medical procedures e.g.:  a) Vital signs monitoring, b) Intramuscular and subcutaneous injections, collects blood samples from peripheral veins, c) Bladder catheter placing in men and women
D.U15	Student cares about patient's rights i.e. protects his privacy, respects his right for intimacy, right for information about his health.
D.W4, D.U5, D.U12	Student respects physician- patient privilege.

\* In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019 „graduate”, not student is mentioned.

**5. ADDITIONAL EFFECTS OF LEARNING** (*non-compulsory*)

Number of effect of learning	Effects of learning in time
<b>Knowledge – Graduate knows and understands:</b>	
K1	
K2	
<b>Skills– Graduate is able to:</b>	
S1	
S2	
<b>Social Competencies – Graduate is ready for:</b>	
SC1	
SC2	

<b>6. CLASSES</b>		
Form of class	Class contents	Effects of Learning
Classes (C)	C1- Physical examination and medical history taking. C2- Medical case presentation. C3- Participation in the medical procedures undertaken on the ward, postoperative room. C4- Participation in surgeries. C5- Outpatient Department. C6- Basic suturing techniques. C7- Ultrasound imaging as a diagnostic and therapeutic tool.	
Seminar (S)	S1- Preoperative and postoperative problems in surgical patient care. S2- Surgical wounds care and surgical technique. S3- Abdominal hernias S4- Head trauma S5- Gastrointestinal bleeding. S6- Acute pancreatitis. S7- Gallstones and chronic cholecystitis. S8- Colon cancer. S9- DVT S10- Spleen surgery	

	S11- Ileus S12- Peptic ulcer disease S13- Appendicitis S14- Introduction to trauma S15- Atherosclerosis obliterans. Aneurysms.	
--	--	--

## 7. LITERATURE

### Obligatory

Principles and Practice of Surgery. O. James Garden et al. Elsevier, 7th Edition

### Supplementary

## 8. VERIFYING THE EFFECT OF LEARNING

Code of the course effect of learning	Ways of verifying the effect of learning	Completion criterion
PC1-PC7	Students are assessed on the grounds of their regular attendance at seminars and active participation in bedside classes	Attendance
S1-S15	MCQ test	At least satisfactory result of the MCQ test provided on the last day of the course (12/20).

## 9. ADDITIONAL INFORMATION *(information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club)*

### Didactics and organization of the classes:

- realization of the program will be based on seminars presenting the current state of knowledge in specific subject and practical classes in clinical wards, out-patients clinics, operation theater
- classes start at 9 a.m and continue until 2 p.m. (including half- an- hour- break)
- students are expected to have their own lab coat, stethoscope, student's ID, shoes
- to complete the course students are expected to pass a test composing of 20 questions (a minimum of 12 correct answers is needed to pass the test). MCQ test covers program based on seminars and practical classes
- student's absences should be worked out on duties in terms coordinated by tutor; only 2 absences are allowed to be worked out. There is no credit for the student who was missing more practical classes or seminars

### Surgery Club

Surgery Club is directed to English Division students. Tutors of the club are M. Polańska- Płachta MD PhD, Łukasz Kaczorowski MD. Meetings are held twice a month. Members of the club are allowed to participate in medical duties and have the possibility to write medical papers, case reports which are then presented on student's conferences.

## Protection of Intellectual Property

<b>3. COURSE OBJECTIVES</b>	
O1	Legal issues in transplantology. Indications for solid organ transplantation
O2	Basics of transplantation immunology, tissue typing and recipient selection, rules of immunosuppressive treatment.
O3	Common post-transplant complications- pathogenesis, clinical presentation, differential and treatment

<b>4. STANDARDS OF LEARNING – DETAILED DESCRIPTION OF EFFECTS OF LEARNING</b> <i>(concerns fields of study regulated by the Regulation of Minister of Science and Higher Education from 26 of July 2019; does not apply to other fields of study)</i>	
<b>Code and number of effect of learning in accordance with standards of learning</b> <i>(in accordance with appendix to Regulation of Minister of Science and Higher education from 26th of July 2019)</i>	<b>Effects in time</b>

**Knowledge – Graduate\* knows and understands:**

G.K1	E.W21. Issues in the field of transplantation immunology, principles of selecting the donor and recipient of organ and stem cells transplants F.W14. The basics of interventional transplantation, indications for the transplantation of irreversibly damaged organs and tissues and related procedures. F.W15. Principles of brain death determination
G.K2	E.W22. Types of transplants and immune mechanisms of allograft rejection C.W39. Major drug side effects, including drug interactions

**Skills– Graduate\* is able to:**

G.S1	E.U1. Conduct medical interview with and adult patient E.U3. Conduct a complete and targeted physical examination of an adult patient E.U14 Recognize life-threatening health conditions E.U16. Plan diagnostic, therapeutic and prophylactic procedures E.U32. Plan specialist consultations E.U20. Qualify the patient for home and hospital treatment
G.S2	E.U17. Analyze the possible side effects of individual drugs and their interactions E.U38. Keep the patient's medical records

\* In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019 „graduate”, not student is mentioned.

<b>5. ADDITIONAL EFFECTS OF LEARNING</b> <i>(non-compulsory)</i>	
<b>Number of effect of learning</b>	<b>Effects of learning i time</b>
<b>Knowledge – Graduate knows and understands:</b>	

K1	D.W6 The importance of verbal and non-verbal communication in the proces of communicating with the patient and the concept of trust in the interaction with the patient
K2	
<b>Skills– Graduate is able to:</b>	
S1	E.U29 Perform basic medical procedures including: body temperaturę measurement (superficial and deep), pulse measurement, non-invasive pressure measurement
S2	
<b>Social Competencies – Graduate is ready for:</b>	
SC1	Acts for the patient’s sake as his priority
SC2	Able to establish and maintain a deep and respectful contact with the patient.

<b>6. CLASSES</b>		
<b>Form of class</b>	<b>Class contents</b>	<b>Effects of Learning</b>
Lectures	L1. Organization of organ procurement and sharing in Poland. L2 Surgical complications in transplant recipients L3. Transplantation of heart, transplantation of lungs. L4. Regenerative medicine. L5. Transplant tolerance. L6. Current problems of transplantology.	F.W15, G.W9.  F.W14  F.W14  E.W21, E.W22  F.W15, G.W9.m E.W21  E.W22
Seminars	S1. Organ procurement, evaluation and selection of donors. Organ preservation.  S2. Qualification to kidney transplantation.  S3. Qualification to liver transplantation.  S4-5. Liver transplantation- surgical techniques and surgical complications.  S6-7 Cardiological, metabolic and hematological complications after solid organ transplantation.  S8. Malignancies in solid organ recipients.  S9-10. Principles of immunosuppressive therapy in organ transplantation.  S11-12. Transplant rejection and ther pathologies evolving in solid organ transplants.  S13. Transplantation from living donor.  S14-15 Infectious complications after solid organ transplantation.  S16. Transplantation of pancreas and pancreatic islets.	F.W15, G.W9.  E.W7.  E.W7.  F.W14  E.W7  E.W7  C.W39  E.W21., E.W22        F.W14, G.W9  E.W7. E.W22

Classes	S17. Post-transplant management of liver transplant recipients.	E.W7, E.W22
	S18-19. Post-transplant management of kidney transplant recipients.	E.W7, E.W22
	C1-12 – clinical rounds, individual cases analysis in the department	
	C13 – passive participation in transplanted organ biopsy	
	C14-15 – passive/active participation in out-patients consultations	
		E.U1, E.U3, E.U7, E.U14, E.U16, E.U17, E.U32, E.U20, E.U38, D.U15

<b>7. LITERATURE</b>
<b>Obligatory</b>
Handbook of kidney Transplantation By Gabriel M. Danovitch, Lippincott Williams& Wilkins 2017
<b>Supplementary</b>
Tectbook of Organ Transplantation Set, Wiley-Blackwell 2014 Allan D Kirk, Stuart J. Knechtle, Christian P. Larsen et al.

8. VERIFYING THE EFFECT OF LEARNING		
Code of the course effect of learning	Ways of verifying the effect of learning	Completion criterion
<i>e.g. G.K1, G.S1, K1</i>	<i>This field defines the methods used for grading students e.g. pop quiz, test, written report etc.</i>	<i>e.g. threshold number of points</i>
E.U1, E.U3, E.U7 E.U12, E.U14 E.U16, E.U17 E.U20  B.W21, B.W24, EW1, E.W7, D.U15, C.U17, E.U17	Continuous assessment during the course of the classes, presence and active participation in the clinical rounds. Based on sick leave one day absenteeism is allowed, the remaining ones must be worked off with another group.  Fifteen questions MCQ test	9 points – 2.0 (failed) 10 points – 3.0 (satisfactory) 11 points – 3.5 (rather good) 12 points – 4.0 (good) 13 points – 4.5 (more than good) 14-15 points – 5.0 (very good)

<b>9. ADDITIONAL INFORMATION</b> ( <i>information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club</i> )
1. Duration of the transplantology course: 1 week (from Monday to Friday).

2. Realization of the program will be based on seminars presenting the current state of knowledge in specific subject and practical classes in clinical wards and out-patients clinics
3. Classes start at 8.00.
4. During the course it is possible to be absent only once.
5. Students are expected to have their own lab coat, stethoscope, student's ID, shoes.
6. The student participate in classes (seminars and practice) only with the group. Possible group change is allowed in exceptional, justified situations and requires individual approval.
7. If a student has two or more absences must make up for absences with another group. Only then can take the test with another group.
8. All student information is provided on an ongoing basis on the Clinic's website  
[www.klinikamedycynytransplantacyjnej.wum.edu.pl](http://www.klinikamedycynytransplantacyjnej.wum.edu.pl)
9. The student is obliged to follow the Medical University of Warsaw Regulations (available on the University's website).
10. Address: Department of Transplantation Medicine, Nephrology and Internal Diseases, 59 Nowogrodzka St, 02-006 Warsaw, Pavilion 1A.
11. Contact email address: [olga.tronina@wum.edu.pl](mailto:olga.tronina@wum.edu.pl)

## 2. BASIC INFORMATION

Year and semester of studies	5th, semester 9	Number of ECTS credits	1.00
FORMS OF CLASSES		Number of hours	ECTS credits calculation
Contacting hours with academic teacher			
Lecture (L)		0	0
Seminar (S)		18 (9 e-learning)	0.9
Classes (C)		0	0
e-learning (e-L)		0	
Practical classes (PC)		0	0
Work placement (WP)		0	0
Unassisted student's work			
Preparation for classes and completions		3	0.1

## 3. COURSE OBJECTIVES

O1	Understanding of definitions, goals, and philosophy of palliative medicine including ethical aspects.
O2	Skills in diagnosing, prevention, and treatment of pain and other most frequent symptoms in the end-stage incurable chronic disease patients.

O3	Communication skills with the patient and his care-givers, and competencies of empathic, holistic care after the patient and his family.
----	--

#### 4. STANDARDS OF LEARNING – DETAILED DESCRIPTION OF EFFECTS OF LEARNING (concerns fields of study regulated by the Regulation of Minister of Science and Higher Education from 26 of July 2019; does not apply to other fields of study)

<b>Code and number of effect of learning in accordance with standards of learning</b> <i>(in accordance with appendix to Regulation of Minister of Science and Higher education from 26th of July 2019)</i>	<b>Effects in time</b>
--	------------------------

##### Knowledge – Graduate\* knows and understands:

G.K1– E.W29	knows and understands the principles of diagnosing and therapeutic management of pain (including cancer and other chronic pain) and other most common symptoms in palliative care patients
G.K2 – E.W27 (1, 2, 3), E.W28	knows and understands the causes, symptoms, principles of diagnosing and therapeutic management of the most frequent problems in palliative medicine, including: <ul style="list-style-type: none"> <li>a) symptomatic treatment of the most common symptoms</li> <li>b) management of cachexia; prevention and treatment of bed-sores</li> <li>c) management of the most frequent urgent events in palliative medicine</li> </ul> rules of palliative treatment of a patient in the terminal state

##### Skills– Graduate\* is able to:

G.S1 – E.U20	refer a patient to home or in-patient palliative care
G.S2 – E.U21	define states in which expected the length of life, functional performance or patient's preferences limit the use the management recommended for particular diseases; and is able to use the principles of withdrawing/refraining from futile treatment

\* In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019 „graduate”, not student is mentioned.

#### 5. ADDITIONAL EFFECTS OF LEARNING (non-compulsory)

<b>Number of effect of learning</b>	<b>Effects of learning i time</b>
-------------------------------------	-----------------------------------

##### Knowledge – Graduate knows and understands:

K1	
K2	

##### Skills– Graduate is able to:

S1	
S2	

**Social Competencies – Graduate is ready for:**

SC1	acts for the patient's sake as his priority
SC2	observes the patient's intimacy and rights
SC3	is aware of own limitations and the necessity of continuous self-development

**6. CLASSES**

Form of class	Class contents	Effects of Learning
Seminar 1-4	Principles and definitions of palliative medicine; qualification for palliative care	E.W29, E.W27, E.W28, E.U20, E.U21 K1, K2, K3
Seminar 3-5	Principles and practical skills of diagnosing and analgesic treatment in cancer and other chronic diseases, based on the recommendations of WHO / ESMO / EAPC; solving clinical cases	E.W29, E.W27 E.U21 K1, K2, K3
Seminar 6-7	Principles of holistic symptomatic management in the end-stage cancer through clinical cases in selected somatic and psychological disorders	E.W29, E.W27, E.W28, E.U20, E.U21 K1, K2, K3
Seminar 8-10	stages of the patient's adaptation to an incurable disease and impending death; practical communication skills of students with the dying person and their family on particular stages of adaptation in the case of an incurable fatal illness	E.W29 K1, K2, K3
Seminar 11-12	palliative care in non-oncological diseases	E.W29, E.W27 E.U21 K1, K2, K3
Seminar 13-14	ethical issues until the end of life (futile / persistent therapy, euthanasia, conditions of a dignified death); doctor's attitude; the ethics of virtues by E. Pellegrino	E.W28 K1, K2, K3
Seminar 15-16	multidimensional aspect of suffering	E.W28 K1, K2
Seminar 17-18	end-of-life care in adult cancer patients	E.W28 K1, K2
e-Learning seminars 19-27	diagnosing and treatment of respiratory symptoms in palliative medicine diagnosing and treatment of gastrointestinal symptoms in palliative medicine; diagnosing and treatment of pressure ulcers in palliative medicine emergencies in palliative medicine	E.W29, E.W27 E.U21 K3

### 8. VERIFYING THE EFFECT OF LEARNING

Code of the course effect of learning	Ways of verifying the effect of learning	Completion criterion
E.W29, E.W27	Multiple-choice test (25 questions)	At least 15 out of the total of 25 points.
E.W29, E.W27, E.W28, K1, K2, K3	Solving of selected cases.	At least 9 points out of the total 21 points
E.U20, E.U21, K1, K2, K3	Attendance and active participation in the seminars; groupwork.	At least 5 points out of the total 10 points.

### 9. ADDITIONAL INFORMATION (*information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club*)

The course consists of 18 hours of seminars, 9 hours of e-learning seminars, and 3 hours of self-preparation.  
Before attending the classes, a student should repeat basic knowledge on the pharmacology of opioid analgesics.  
Completion of a self-preparation course and test on the e-learning platform before face-to-face classes is mandatory.  
The subject is credited upon active attendance in all seminars and positive completion of e-learning, and solving clinical cases.

## 3. COURSE OBJECTIVES

C1	Acquiring skills in examining a newborn and getting acquainted with issues in the field of physiology and pathology of the neonatal period.
C2	Principles of neonatal life support and postpartum resuscitation of the newborn
C3	Know the basic complications of prematurity

**4. STANDARDS OF LEARNING – DETAILED DESCRIPTION OF EFFECTS OF LEARNING** (*concerns fields of study regulated by the Regulation of Minister of Science and Higher Education from 26 of July 2019; does not apply to other fields of study*)

Code and number of effect of learning in accordance with standards of learning (in accordance with appendix to the Regulation of Minister of Science and Higher Education from 26th of July 2019)	Effects in time
<b>Knowledge – Graduate* knows and understands:</b>	
<b>E.W1.</b>	environmental and epidemiological conditions of the most common illness
<b>E.W2.</b>	rules of nutrition of healthy and sick children, protective vaccinations and routine children's health checks
<b>E.W3.</b>	3) acute and chronic diseases of the upper and lower respiratory tract, congenital defects of the respiratory tract, tuberculosis, cystic fibrosis, asthma, allergic rhinitis, urticaria, anaphylactic shock, angioedema,
<b>E.W5.</b>	basic methods of diagnosing and treating the foetus
<b>E.W6.</b>	the most common life threatening conditions in children and the management of these conditions
<b>F.W6.</b>	indications for and principles of use of intensive care
<b>F.W7.</b>	applicable recommendations concerning resuscitation of newborns, children and adults
<b>F.W10.</b>	the issues of contemporary imaging studies in neonatology
<b>G.W9.</b>	legal regulations concerning transplantations, artificial reproduction, abortion, aesthetic procedures, palliative treatment and mental diseases;
<b>Skills– Graduate* is able to:</b>	
<b>E.U2.</b>	collect medical history from a child and its family;
<b>E.U4.</b>	conduct a physical examination of children of any age
<b>E.U8.</b>	assess the condition of newborns in the APGAR scale and assess their maturity, examine the newborn reflexes
<b>E.U14.</b>	recognize the states of immediate threat to the life of the newborn
<b>E.U12.</b>	perform the differential diagnosis of the most common diseases in adults and children

<b>E.U14.</b>	recognise immediate threats to life
<b>E.U16.</b>	plan diagnostic, therapeutic and preventive treatment
<b>E.U20.</b>	qualify patients for home and hospital treatment
<b>E.U24</b>	interpret laboratory test results with the identification of reasons for deviation
<b>E.U27.</b>	qualify the patient for vaccinations in the neonatal period
<b>F.U11.</b>	follow the algorithm of advanced life support;

*In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019 „graduate”, not student is mentioned.*

<b>5. ADDITIONAL EFFECTS OF LEARNING (non-compulsory)</b>	
<b>Number of effect of learning</b>	<b>Number of effect of learning</b>
<b>Social Competencies – Graduate is ready for:</b>	
<b>1</b>	establishing and maintaining deep and respectful contact with the patient and the child's mother, as well as showing understanding for worldview and cultural differences
<b>2</b>	be guided by the good of the patient;
<b>3</b>	observance of medical confidentiality and patient rights;
<b>4</b>	aking actions towards the patient based on ethical principles, with the awareness of social conditions and limitations resulting from the disease;
<b>5</b>	noticing and recognizing own limitations and self-assessment of deficits and educational needs
<b>9</b>	implementing the principles of professional camaraderie and cooperation in a team of specialists, including representatives of other medical professions, also in a multicultural and multinational environment
<b>8</b>	formulating conclusions from own measurements or observations;
<b>11</b>	accepting responsibility for decisions made in the course of professional activity, including in terms of one's own safety and that of others.

<b>Supplementary:</b>
Care of the high-risk neonate- Klaus and Fanaroff's

<b>8. VERIFYING THE EFFECT OF LEARNING</b>		
Code of the course effect of learning	Code of the course effect of learning	Code of the course effect of learning
E.W1. E.W2. E.W3. E.W5. E.W6. F.W6. F.W7. F.W10. G.W9.	Sem	<i>Written test</i>
E.U2. E.U4. E.U8. E.U14. E.U12. E.U24. E.U16.	C	Disease history, epicrisis, observations, recommendations, oral exercise report

E.U20. E.U27. F.U11.		
Social Competencies:	S, C	Oral exercise report and observations

**9. ADDITIONAL INFORMATION** (information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club)

1. During the classes the following are necessary: medical scrubs, change of shoes, stethoscope
2. The class lasts 4 days, including 1 day at the Medical Simulation Center, classes begin up at 8:00.
3. The scope of knowledge applicable at the final test is included in the topics of classes during seminars and exercises, and /ore materials on the e-learning platform. Completion of the course is in writing test. Completing the block requires active participation in all bedside activities and seminars (including preparation for seminars) and passing a test- 20 questions, 14 positive guarantees passing test  
The condition for admission to the colloquium is a positive evaluation of the clinical classes and the completion of possible absences. Unauthorized absence from the test results in failure to pass the course. Obtaining a fail mark in the test requires correction in the same form (written test) with the next groups within the free group lesson.
4. Absences from seminars are counted in the form of an oral answer from the abandoned topic (until the day of the colloquium); absences from bedside classes are made up in the form of additional clinical duty between 09:30 and 12:30 on public holidays. Absence longer than one day makes it necessary to make up the whole block again. Unusual cases are settled individually.
5. Please do not be late for classes. A delay of more than 15 minutes is considered an absence.
6. Students interested in neonatology can participate in the activities of the Students' Science Club in the Clinic.  
<https://web.facebook.com/sknnoworodki>;
7. On the last day of classes, after the test, students complete an anonymous internal questionnaire summarizing the block of neonatology classes.
8. All student information is provided on an ongoing basis on the Clinic's website  
[www.klinikaneonatologii.wum.edu.pl](http://www.klinikaneonatologii.wum.edu.pl)

**Schedule of classes in Medical Simulation Center at 1a Banacha St.:**

**Gr 1:** 31 March at 8.00am - 2.00pm

**Gr 2:** 17 November at 8.00am - 2.00pm

**Gr 3:** 20 October at 14.00-20.00

**Gr 4:** 13 December at 14.00-20.00

## VOCATIONAL TRAINING:

**Surgery – 2 weeks – 70h**

**Obstetrics & Gynecology – 2 weeks - 70h**

**5th year, 6-year program ED students**

**Faculty of Medicine**

Upon completion of their fifth year of study students are required to take one-month summer clinical clerkships including a two-week training at the Department of Obstetrics & Gynecology and subsequently a two-week practical course in the Surgical Ward at a teaching hospital in Poland or selected foreign countries. The clerkships are a part of the medical curriculum mandatory to be granted a pass to enter the sixth year of the study.

The head of the Ob/Gyn Department, the surgical ward or an appointed instructor in charge is responsible for providing a detailed program of the practical training course and duty schedules. They also supervise and carry out the final assessment of students' performance.

The duties carried out by the student are those of a regular physician / surgeon, however, under professional supervision of the instructors

During their training students are expected to perform two twenty-four hour shifts (two on each ward) when they shadow the physician / surgeon in charge and assist or do the regulator work.

The main objective of the summer holiday clerkships is to use the theoretical knowledge gained by students in the course of their fourth-year study (e.g. pharmacology, general surgery, internal diseases, pediatric diseases, community medicine etc). As well as to improve their practical skills.

The fifth-year training aims at using the theoretical background students obtained in their courses (gynecology, obstetrics, infectious diseases, internal diseases, paediatric diseases, surgery, neurology, imaging diagnostics, anesthetics etc.) developing and/or improving practical skills.

The program at the G&O ward provides instruction in the following aspects:

1. organization and functioning of the Obstetric Admissions Department, Labor Ward and Maternity Ward;
2. admitting the patient, setting up the patient's records, carrying out activities with respect to the patient's personal toilet;
3. monitoring the stages of labor, completing the chart of the labor course with a particular focus on parameters with respect to the maternal and fetal status;
4. delivering the patient under a close supervision of an obstetrician and midwife;
5. assistance in suturing the perineum;
6. post-delivery assessment of the placenta;
7. instruction in operating diagnostic devices (e.g. amnioscope, pulse rate detector etc.);

8. assisting in the Caesarian section
9. organization and management of work at the Gynecological Admission Department and in the Gynecological Ward;
10. principles of gynecological examination;
11. criteria used for qualifying patients for operation;
12. management of work in the treatment room, completing and filing records, collecting samples for histopathological and cytological examination;
13. assisting in gynecological surgical procedures;
14. early postoperative monitoring, completing the patients' chart;
15. management of patients admitted for threatened abortion;
16. principles of prevention of neoplasia of the female genital organs and breast;

The training program provided by the Surgical Ward covers the following aspects:

1. organization and management of the ward (admissions to the operating theaters, treatment rooms, admission criteria, completing and filing records, discharging patients from hospital).
2. types of surgical instruments and equipment.
3. improving skills in clinical examination and diagnostic procedures, particularly in emergency cases.
4. learning the rules of wound dressing and suturing techniques, managing fractures and burns.
5. learning the principles and types of local anesthesia.
6. participating in ward rounds and morning briefings done by the doctor in charge.
7. active participation in the functioning of the ward, practicing basis interventions, changing dressings, removing stitches, starting intravenous drips, collecting samples for diagnostic procedures.
8. principles of asepsis and antisepsis, the technique of scrubbing before operation.
9. assisting in surgical procedures in the operating theater.

Throughout the course of training students are expected to make records of their activities and procedures performed. They are also assessed by the instructor in charge and are finally granted their passing mark by the head of the department. Certificates written in English or translated should be submitted to the Dean's Office of the Medical University of Warsaw by October 5 of the subsequent academic year.
