

UNIWERSYTET MEDYCZNY WYDZIAŁ LEKARSKI

**Medical University of Warsaw** Faculty of Medicine – English Division 61 Żwirki i Wigury Street 02-091 Warsaw, Poland

http:// www.wum.edu.pl/

1<sup>st</sup> YEAR CURRICULUM 6-year program

## Academic year: 2023/2024

"The property rights, including copyrights, to the syllabus are vested in Medical University of Warsaw. The syllabus can be used for purposes related to education during studies at the Medical University of Warsaw. The use of the syllabus for other purposes requires the consent of the Medical University of Warsaw."

## **AUTHORITIES OF MEDICAL UNIVERSITY OF WARSAW – TERM 2020-2024**

**Rector** – Professor Zbigniew Gaciong, MD, PhD

Vice Rector for Student Affairs and Education - Professor Marek Kuch, MD, PhD

Vice Rector for Science and Technology Transfer – Professor Piotr Pruszczyk, MD, PhD

Vice Rector for Human Resources - Professor Agnieszka Cudnoch-Jędrzejewska, MD, PhD

Vice Rector for Clinical Affairs and Investments - Professor Wojciech Lisik, MD, PhD

Vice Rector for International Relations, Development and Promotion – Professor Paweł Włodarski, MD, PhD

## FACULTY AUTHORITIES OF MEDICAL UNIVERSITY OF WARSAW - TERM: 2020-2024

Faculty of Medicine – Professor Rafał Krenke MD, PhD

English Division – Faculty of Medicine – Assoc. Prof. Jacek Sieńko, MD, PhD.

## **DEAN'S OFFICE**

Head of the Dean's Office – Krystyna Jarząb, MA

Student Administration Officer (1st, 2nd and 3rd -Year) – Aleksandra Chilecka

Student Administration Officer (4th, 5th, 6th -Year) – Anna Rosa, MA

## STUDENT GOVERNMENT REPRESENTATIVES:

President – Catherine Gartside Vice President – Michail Koutentakis Secretary – Rakesh Roshan Student Rights' Representative – Loay Alayoubi Social Media Coordinator – Ishani Khanna Events Coordinator – Divil Amarnani, Alexis Vourtsis Academic Affairs Coordinator – Flynn Ott www: https://edsgwum.wixsite.com/edsg

## YEAR REPRESENTATIVE:

TBA – 1 year

# SCHEDULE – ACADEMIC YEAR 2023/2024

6-year program

# WINTER SEMESTER - 01.10.2023 - 18.02.2024

| STUDENT'S ACADEMIC CLASSES:                        | 01.10.2023 - 17.12.2023                                   |
|--|---|
|  | 02.01.2024 - 28.01.2024                                   |
| WINTER HOLIDAYS:                                   | 18.12.2023 - 01.01.2024                                   |
|  |   |
| EXAM SESSION:                                      | 29.01.2024 - 04.02.2024                                   |
| <b>EXAM SESSION:</b><br>DAYS OFF BETWEEN SEMESTER: | <b>29.01.2024 - 04.02.2024</b><br>05.02.2024 - 11.02.2024 |

# SUMMER SEMESTER - 19.02.2024 - 30.09.2024

| STUDENT'S ACADEMIC CLASSES:   | 19.02.2024 - 28.04.2024 |
|-------------------------------|-------------------------|
|                               | 06.05.2024 - 09.06.2024 |
| SPRING HOLIDAYS:              | 29.04.2024 - 05.05.2024 |
| DAYS OFF BEFORE EXAM SESSION: | 10.06.2024 - 16.06.2024 |
| EXAM SESSION:                 | 17.06.2024 - 07.07.2024 |
| SUMMER HOLIDAYS:              | 08.07.2024 - 30.09.2024 |
| RETAKE EXAM SESSION:          | 02.09.2024 - 15.09.2024 |

| 3. | COURSE OBJECTIVES   |
|----|---|
| 01 | To acquire the knowledge about the construction and usage of anatomical terminology according to the internationally accepted "Terminologia Anatomica".                                 |
| 02 | To be able to name and describe all the anatomical structures dissected during the laboratory classes, understand their development as well as topographical relations.                 |
| 03 | To understand the relationship between the structure and function of tissues, organs and systems of the human body.   |
| 04 | To be able to recognize the anatomical structures in images acquired using various imaging modalities (computed tomography, magnetic resonance imaging, ultrasound imaging, endoscopy). |
| 05 | To understand the principles of biomechanics (movements of joints, function of muscles).  |
| O6 | To describe anatomical background of central and peripheral nervous system damage.  |
| 07 | To know the spatial, topographical relationships between organs.  |
| 08 | To know the surface projections of the organs (e.g. projection of the cardiac valves on the surface of the chest)   |
| 09 | To differentiate the normal conditions from pathology basing on post mortem and in vivo methods.  |

| <b>4. Standards of LEARNING – DETAILED DESCRIPTION OF EFFECTS OF LEARNING</b> (concerns fields of study regulated by the Regulation of Minister of Science and Higher Education from 26 of July 2019; does not apply to other fields of study) |  |  |  |  |  |
|--|--|--|--|--|--|
| Code and number of effect of<br>learning in accordance with<br>standards of learning   |  |  |  |  |  |
| Knowledge – Graduate* knows and understands:   |  |  |  |  |  |
| G.K1 Appropriate English anatomical terminology  |  |  |  |  |  |
| G.K2   | Structure of the human body in topographical, systematic and functional approach   |  |  |  |  |
| G.K3   | G.K3 Topography of the organs in the living subject with the emphasis on their surface projections   |  |  |  |  |
| Skills- Graduate* is able to:  |  |  |  |  |  |
| G.S1   | G.S1 Explain the anatomical background of the physical examination   |  |  |  |  |
| G.S2   | Correlate the relationships between the anatomical structures basing on in vivo diagnostic studies, especially medical imaging (X-ray, contrast-enhanced studies, computed tomography, magnetic resonance imaging, sonography) |  |  |  |  |

| ~ | <b>C 1</b> |
|---|------------|
| G | .53        |

Use anatomical terminology in spoken and in written language

\* In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019 "graduate", not student is mentioned.

| Number of<br>effect of<br>learning | Effects in the fields of:   |
|------------------------------------|---|
| nowledge – Grad                    | duate knows and understands:  |
| К1                                 | Palpation sites of arterial pulse, nerves, internal organs, muscles, bones and joints   |
| К2                                 | Principles of anatomical research methodology   |
| kills– Graduate is                 | s able to:  |
| S1                                 | Understand and use images of anatomical structures obtained from anatomical dissections, medical imaging modalities, as well as medical and anatomical iconography      |
| S2                                 | Analyse biomechanics of the joints  |
| S3                                 | Recognize pulse palpation sites, palpation sites of major nerve trunks and typical osseous points   |
| S4                                 | Recognize basic anatomical structures essential for the medical practitioner in specimens and models (see basic points list) in at least 90%                            |
| S5                                 | Recognize the remaining anatomical structures in specimens, models, medical images (sonography, X-ray, computed tomography, magnetic resonance imaging) in at least 65% |
| S6                                 | Design a simple scientific research study in anatomy  |
| ocial Competenc                    | ies – Graduate is ready for:  |
| SC1                                | Show respect for the human body (corpse), social groups, religious feelings for the sake of their welfare   |
| SC2                                | Further self-education with medical confidentiality   |

| orm of class   | Class contents                                     | Effects of Learning |
|----------------|--|---------------------|
| Lectures 1-20  | WINTER SEMESTER                                    |                     |
| L1 - Lecture 1 | Introduction to the gross and clinical anatomy.    | G.K1, G.K2, G.K3    |
| L2 - Lecture 2 | Organization of the skeletal system.               | G.K1, G.K2, G.K3    |
| L3 - Lecture 3 | Classification of bones, classification of joints. | G.K1, G.K2, G.K3    |
| L4 - Lecture 4 | General topography of the skull.                   | G.K1, G.K2, G.K3    |
| L5 - Lecture 5 | Developmental anatomy of the skull.                | G.K1, G.K2, G.K3    |
| L6 - Lecture 6 | Surgical anatomy of the skull.                     | G.K1, G.K2, G.K3    |

| L7 - Lecture 7   | Central nervous system: introduction, development and its implications.                                 | G.K1, G.K2, G.K3                   |
|------------------|---|------------------------------------|
| L8 - Lecture 8   | Cerebral cortex, thalamic nuclei and their connections.   | G.K1, G.K2, G.K3                   |
| L9 - Lecture 9   | Circulation of the cerebrospinal fluid and the ventricular system.                                      | G.K1, G.K2, G.K3                   |
| L10 - Lecture 10 | Functional anatomy of the brainstem, cerebellum and the cranial nerves.                                 | G.K1, G.K2, G.K3                   |
| L11 - Lecture 11 | Sensory pathways and centers in the central nervous system.<br>Somatic sensation.                       | G.K1, G.K2, G.K3                   |
| L12 - Lecture 12 | Sensory pathways and centers in the central nervous system.<br>Special senses.                          | G.K1, G.K2, G.K3                   |
| L13 - Lecture 13 | Motor pathways and centers in the central nervous system.   | G.K1, G.K2, G.K3                   |
| L14 - Lecture 14 | Functional assessment of CNS.   | G.K1, G.K2, G.K3                   |
| L15 - Lecture 15 | General topography of the neck. Triangles and muscles of the neck.<br>Cervical fascia. Cervical plexus. | G.K1, G.K2, G.K3                   |
| L16 - Lecture 16 | Surgical anatomy of the neck.   | G.K1, G.K2, G.K3                   |
| L17 - Lecture 17 | Anatomical aspects of ENT medicine.   | G.K1, G.K2, G.K3                   |
| L18 - Lecture 18 | Facial nerve. Trigeminal nerve – clinical syndromes of these nerves.                                    | G.K1, G.K2, G.K3                   |
| L19 - Lecture 19 | Clinical anatomy of the visual system.  | G.K1, G.K2, G.K3                   |
| L20 - Lecture 20 | Clinical anatomy of the organ of hearing.   | G.K1, G.K2, G.K3                   |
| Seminars 1-23    | WINTER SEMESTER   |                                    |
| S1 – Seminar 1   | Axial skeleton, Vertebrae, Ribs.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S2 – Seminar 2   | Upper extremity.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S3 – Seminar 3   | Lower extremity.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S4 – Seminar 4   | Bones of the skull 1.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S5 – Seminar 5   | Bones of the skull 2.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S6 – Seminar 6   | Joints, fossae, canals and spaces of the skull.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S7 – Seminar 7   | Radiology in osteology. Repetition.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S8 – Seminar 8   | Introduction. Spinal cord. Spinal nerve.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S9 – Seminar 9   | Cerebral hemisphere.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S10 – Seminar 10 | Diencephalon. Lateral and third ventricles.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S11 – Seminar 11 | Brainstem, cerebellum. Fourth ventricle. Roots of cranial nerves.                                       | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S12 – Seminar 12 | Cross-sections of the CNS.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S13 – Seminar 13 | Vascular anatomy of the CNS.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S14 – Seminar 14 | Identification of elements of the CNS pathways.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S15 – Seminar 15 | Radiologic anatomy of the CNS.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S16 – Seminar 16 | Skin. Neck: triangles, fascias, veins. Cervical plexus.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S17 – Seminar 17 | Neck: muscles. Thyroid gland, parathyroids. CCA.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
|                  |   |                                    |

| S22 – Seminar 22           | Orbit, eye. Dura mater. Dural sinuses.                                       | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
|----------------------------|--|------------------------------------|
| S23 – Seminar 23           | Ear. Hearing organ. Temporal bone. Radiologic anatomy of Head and Neck.      | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| Practical Classes 1-24     | WINTER SEMESTER  |                                    |
| PC1 – Laboratory class 1   | Axial skeleton, Vertebrae, Ribs.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC2 – Laboratory class 2   | Upper extremity.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC3 – Laboratory class 3   | Lower extremity.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC4 – Laboratory class 4   | Bones of the skull 1.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC5 – Laboratory class 5   | Bones of the skull 2.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC6 – Laboratory class 6   | Joints, fossae, canals and spaces of the skull.                              | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC7 – Laboratory class 7   | Radiology in osteology. Repetition.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC8 – Laboratory class 8   | Introduction. Spinal cord. Spinal nerve.                                     | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC9 – Laboratory class 9   | Cerebral hemisphere.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC10 – Laboratory class 10 | Diencephalon. Lateral and third ventricles.                                  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC11– Laboratory class 11  | Brainstem, cerebellum. Fourth ventricle. Roots of cranial nerves.            | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC12 – Laboratory class 12 | Cross-sections of the CNS.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC13 – Laboratory class 13 | Vascular anatomy of the CNS.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC14 – Laboratory class 14 | Identification of elements of the CNS pathways.                              | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC15 – Laboratory class 15 | Radiologic anatomy of the CNS. Repetition.                                   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC16 – Laboratory class 16 | Skin. Neck: triangles, fascias, veins. Cervical plexus.                      | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC17 – Laboratory class 17 | Neck: muscles. Thyroid gland, parathyroids. CCA.                             | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC18 – Laboratory class 18 | Larynx, trachea. ECA. Vagus, accessory nerve. Sympathetic trunk.             | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC19 – Laboratory class 19 | Muscles of face. Facial nerve and artery. Parotid gland.                     | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC20 – Laboratory class 20 | Oral cavity, teeth, gums, tongue, palate. Hypoglossal nerve.                 | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC21 – Laboratory class 21 | Infratemporal fossa. Nasal cavity. Trigeminal nerve.                         | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC22 – Laboratory class 22 | Orbit, eye. Dura mater. Dural sinuses.                                       | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC23 – Laboratory class 23 | Ear. Hearing organ. Temporal bone. Radiologic anatomy of H&N.<br>Repetition. | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC24 – Laboratory class 24 | Repetition. 1st Intermediate Credit  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| Lectures 21-40             | SUMMER SEMESTER  |                                    |
| L21 - Lecture 21           | Topographical and practical anatomy of the back.                             | G.K1, G.K2, G.K3                   |
| L22 - Lecture 22           | Clinical anatomy of thoracic wall and the breast.                            | G.K1, G.K2, G.K3                   |

| L23 - Lecture 23 | Anatomy of mediastinum and its clinical applications.        | G.K1, G.K2, G.K3                   |
|------------------|--|------------------------------------|
| L24 - Lecture 24 | Applied anatomy of the respiratory system.                   | G.K1, G.K2, G.K3                   |
| L25 - Lecture 25 | Functional anatomy of the heart.                             | G.K1, G.K2, G.K3                   |
| L26 - Lecture 26 | Developmental anatomy of the heart and great vessels.        | G.K1, G.K2, G.K3                   |
| L27 - Lecture 27 | Surgical anatomy of the abdominal wall.                      | G.K1, G.K2, G.K3                   |
| L28 - Lecture 28 | Clinical and developmental anatomy of the peritoneal cavity. | G.K1, G.K2, G.K3                   |
| L29 - Lecture 29 | Structure and topography of the alimentary tract 1.          | G.K1, G.K2, G.K3                   |
| L30 - Lecture 30 | Structure and topography of the alimentary tract 2.          | G.K1, G.K2, G.K3                   |
| L31 - Lecture 31 | Anatomical basis of abdominal surgery.                       | G.K1, G.K2, G.K3                   |
| L32 - Lecture 32 | Applied anatomy of the retroperitoneal space.                | G.K1, G.K2, G.K3                   |
| L33 - Lecture 33 | Male reproductive system.                                    | G.K1, G.K2, G.K3                   |
| L34 - Lecture 34 | Female reproductive system.                                  | G.K1, G.K2, G.K3                   |
| L35 - Lecture 35 | Clinical anatomy of pregnancy and labour.                    | G.K1, G.K2, G.K3                   |
| L36 - Lecture 36 | Clinical anatomy in urology.                                 | G.K1, G.K2, G.K3                   |
| L37 - Lecture 37 | Clinical anatomy of the shoulder.                            | G.K1, G.K2, G.K3                   |
| L38 - Lecture 38 | The hand - practical and topographical anatomy.              | G.K1, G.K2, G.K3                   |
| L39 - Lecture 39 | Clinical anatomy of the pelvic girdle.                       | G.K1, G.K2, G.K3                   |
| L40 - Lecture 40 | Biomechanics of the foot and its clinical implications.      | G.K1, G.K2, G.K3                   |
| Seminars 24-47   | SUMMER SEMESTER  |                                    |
| S24 – Seminar 24 | Back.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S25 – Seminar 25 | Thoracic wall. Breast.                                       | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S26 – Seminar 26 | Thoracic cavity.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S27 – Seminar 27 | Respiratory system.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S28 – Seminar 28 | Heart.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S29 – Seminar 29 | Posterior mediastinum.                                       | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S30 – Seminar 30 | Radiologic anatomy of the thorax.                            | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S31 – Seminar 31 | Abdominal wall.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S32 – Seminar 32 | Peritoneum.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S33 – Seminar 33 | Stomach, celiac trunk, duodenum. Superior mesenteric artery. | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S34 – Seminar 34 | Jejunum, ileum. Large intestine. Inferior mesenteric artery. | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S35 – Seminar 35 | Liver, spleen, pancreas. Portal vein.                        | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S36 – Seminar 36 | Urinary system. Retroperitoneal space.                       | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S37 – Seminar 37 | Male genital organs.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S38 – Seminar 38 | Female genital organs.                                       | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S39 – Seminar 39 | Pelvic floor. Perineum.                                      | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |

| S40 – Seminar 40           | Radiologic anatomy of abdomen and pelvis.                    | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
|----------------------------|--|------------------------------------|
| S41 – Seminar 41           | Shoulder and arm.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S42 – Seminar 42           | Forearm.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S43 – Seminar 43           | Hand.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S44 – Seminar 44           | Gluteal region. Thigh.                                       | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S45 – Seminar 45           | Leg.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S46 – Seminar 46           | Foot.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| S47 – Seminar 47           | Radiologic anatomy of the limbs.                             | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| Practical Classes 25-52    | SUMMER SEMESTER  |                                    |
| PC25 – Laboratory class 25 | Back.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC26 – Laboratory class 26 | Thoracic wall. Breast.                                       | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC27 – Laboratory class 27 | Thoracic cavity.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC28 – Laboratory class 28 | Respiratory system.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC29 – Laboratory class 29 | Heart.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC30 – Laboratory class 30 | Posterior mediastinum.                                       | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC31 – Laboratory class 31 | Radiology of the thorax.                                     | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC32 – Laboratory class 32 | Abdominal wall.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC33 – Laboratory class 33 | Peritoneum.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC34 – Laboratory class 34 | Stomach, celiac trunk, duodenum. Superior mesenteric artery. | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC35– Laboratory class 35  | Jejunum, ileum. Large intestine. Inferior mesenteric artery. | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC36 – Laboratory class 36 | Liver, spleen, pancreas. Portal vein.                        | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC37 – Laboratory class 37 | Urinary system. Retroperitoneal space.                       | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC38 – Laboratory class 38 | Male genital organs.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC39 – Laboratory class 39 | Female genital organs.                                       | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC40 – Laboratory class 40 | Pelvic floor. Perineum.                                      | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC41 – Laboratory class 41 | Radiology of abdomen and pelvis.                             | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC42 – Laboratory class 42 | Shoulder and arm.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC43 – Laboratory class 43 | Forearm.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC44 – Laboratory class 44 | Hand.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC45 – Laboratory class 45 | Gluteal region. Thigh.                                       | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC46 – Laboratory class 46 | Leg.   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC47 – Laboratory class 47 | Foot.  | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC48 – Laboratory class 48 | Radiology of the limbs.                                      | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC49 – Laboratory class 49 | Repetition. 2nd Intermediate Credit.                         | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
| PC50 – Laboratory class 50 | Admission Test   | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
|                            |  |                                    |

| PC51 – Laboratory class 51 | 2nd Admission Test | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |
|----------------------------|--------------------|------------------------------------|
| PC52 – Laboratory class 52 | Repetition         | G.K1, G.K2, G.K3, G.S1, G.S2, G.S3 |

| <b>7.</b> ι | RATURE |
|-------------|--------|
| Obligatory  |        |

|    |  | 4 |
|----|--|---|
| 1. | Moore KL, Dalley AF, Agur AMR. Clinically oriented anatomy. Philadelphia: Wolters Kluwer/Lippincott Williams & Wilkins             | l |
|    | The basic textbook to prepare for the laboratory classes and theoretical tests. Multiple choice questions are written according    | l |
|    | to this book and lectures. Please read clinical blue boxes as well - they will expand your understanding of clinical importance of | l |
|    | anatomical structures you learn about. Some of clinical issues may be also included in the tests.                                  | l |

- 2. Snell RS. Clinical neuroanatomy. Philadelphia: Wolters Kluwer Health/Lippincott Williams & Wilkins; 2010 The basic textbook of clinical neuroanatomy. We recommend it for the CNS section.
- Fitzgerald MJT, Gruener G, Mtui E. Clinical Neuroanatomy and Neuroscience. Saunders; 2012
   A comprehensive textbook of clinical anatomy of the central nervous system. We recommend it for the CNS section.
- 4. Dauber W, Feneis H. Pocket atlas of human anatomy : Founded by Heinz Feneis. Stuttgart ; New York: Thieme An illustrated dictionary of anatomical nomenclature based on Terminologia Anatomica, useful for practical classes, repetitions and practical tests.
- FIPAT. Terminologia Anatomica. International Anatomical Terminology. Stuttgart, New York: Thieme; 2011
  The official anatomical terminology. The reference book in case of any discrepancies regarding the terminology used by various
  authors.

### Supplementary

- 1. Gilroy AM, MacPherson BR, Ross LM, Schünke M, Schulte E, Schumacher U. Atlas of anatomy. New York: Thieme; 2012 A good and popular anatomical atlas. Our recommendation.
- Sobotta Atlas of Human Anatomy or Atlas of Anatomy There are numerous editions of one of the most popular anatomical atlases worldwide. Editors and publishers are different, but illustrations are the same.
- 3. Rohen JW, Yokochi C, Lütjen-Drecoll E. Color atlas of anatomy: A photographic study of the human body. Baltimore: Lippincott Williams & Wilkins; 2011

An atlas with photographs of real anatomical specimens.

**9.** Additional INFORMATION (information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club)

There is the active students' scientific club at the Department of Descriptive and Clinical Anatomy. The membership is granted basing on the passed examination in Clinical Anatomy and one semester internship as the teaching assistant support in the dissection laboratory. The students can join one of the following sections: Neuroanatomy, Clinical Anatomy of the Fetus and Cardiovascular System, Clinical Anatomy of the Locomotor System and Surgery.

### INTERNAL REGULATIONS OF THE DEPARTMENT OF DESCRIPTIVE AND CLINICAL ANATOMY IN ACADEMIC YEAR 2023/2024

- In order to complete a semester, a year and to pass Final Anatomy Examination student should participate actively in lectures, seminars and practical classes. Participation in seminars and practical classes is obligatory.
   CAUTION: During the course of anatomy, the student is supposed to have the knowledge acquired from all previous practical classes and lectures.
- The course of anatomy is divided into six following modules:
   (a) osteology and arthrology, (b) central nervous system, (c) head and neck, (d) thorax and back, (e) abdomen and pelvis, (f) upper and lower elimb and back, (h) lower limb.
- 3. Before the seminar and practical class a student is obliged to watch an educational film introducing a given topic, available at the educational platform MUW (<u>www.e-learning.wum.edu.pl/en</u>).
- 4. A student is obliged to obtain a credit for each of practical classes by completing a quiz available at the educational platform (<u>www.e-learning.wum.edu.pl/en</u>).
  - a. quizzes consist of 6 multiple-choice theoretical questions;
  - b. they will be available directly after the end of practical class and through the next 24 hours, after this time the quiz will be closed and no additional attempts are planned;
  - c. in order to pass the quiz, all questions must be answered correctly (6/6 points), the number of attempts is not limited;
  - d. passing the quizzes is mandatory for being allowed to the Intermediate Credit.
- 5. Moreover, students have to participate in two intermediate credits (60 MCQ points and 60 practical test points).
  - Intermediate Credits are semestral tests covering the material of the semester:
    - a. they are organized at the end of each semester;
      - b. they include theoretical and practical parts, which are attempted separately;
      - c. theorectical part consists of 60 questions (single best answer);
      - d. practical part consists of 30 anatomical structures to be recognized;
      - e. more than 4 absences (or uncompleted quizzes) excludes the student from being allowed to the Intermediate Credit in a given semester.
- 7. Absence exceeding four practical classes per semester excludes completion of the semester. The student is therefore not allowed to take the final examination in anatomy.
- 8. Rules for completing a semester and a year:

6.

- a. to pass the anatomy course and be admitted to the Final Exam, it is necessary to obtain a minimum of 78 points for theoretical tests and a minimum of 78 points for practical tests from both Intermediate Credits.
- b. a student who obtained less than 78p for theoretical tests, at the end of the course, takes the theoretical part of Admission Test for the entire material (60 theoretical questions, passing level 65%).
- c. a student who obtained less than 78p for practical tests, at the end of the course, takes the practical part of Admission Test for the entire material (pin test, 30 pins, passing level 65%).
- d. a student who failed the Admission Test will have the 2nd attempt to Admission. Only the failed components are to be retaken (theoretical, practical or both).
- e. the 2nd Admission Test is organized after the closure of the anatomy course this is an ultimate attempt. No other attempts will be organized.
- f. failure to meet the above conditions shall mean failure to complete the year and not being allowed to sit the Final Exam.
- 9. The final examination in anatomy is scheduled in summer examination period and consists of two parts: practical (pin) test and theoretical (Multiple Choice Questions test). The level to pass the practical examination is 36/40 basic points (the list of basic points is available at the educational platform MUW) and 76/120 total score. The level to pass MCQ is 76/120. Examination

grades according to points: 152-169 – satisfactory, 170-187 – better than satisfactory, 188-205 – good, 206-223 – better than good, 224-240 – very good.

- 10. Retake of the Final Anatomy Examination is administered in September. Only the failed components are to be retaken.
- Practical anatomy involves students in the examination and dissection of human subjects. This privileged opportunity relies on the generosity of local people who recognize the value to medicine that the practical study of human anatomy can provide and generously make their bodies available for that purpose to medical and science students. It is important that, at all times, you respect that generosity and behave accordingly. The students should wear long trousers

or skirts. Shorts and mini-skirts are not allowed. A student violating the dress code will not be allowed to enter the Dissection Room.

12. Much of the course work is carried out in the Dissection Room. Only students of the Medical University of Warsaw who have a valid student ID, wear protective clothing: white surgical gown (fastened at the back), white surgical cap or other type of hair-cover, sleeves rolled up to the elbows, are allowed to enter the Dissecting Rooms. The protective suit must be put on and taken off outside the Dissection Room. Every student must wear an ID badge. Disection Rooms are constantly monitored with CCTV cameras.

Students are allowed to enter the Dissection Room only in time of practical classes of her/his students' group if not otherwise specified.

- 13. Students are required to arrive on time and to efficiently leave the Dissection Rooms after the end of class. A student who is more than 10 minutes late will not be admitted to the Dissection Room.
- 14. The rules of admission to Lab Classes, the procedure for entering and leaving the rooms, and the rules for using personal protective equipment are specified in the current ordinances of the Rector, announcements of the University Authorities and the University Team for COVID.
- 15. Unauthorized persons must not enter the Dissection Rooms.
- 16. Students MUST care about hygiene. In particular:
  - a. have clean hands with short, unpolished nails; no jewelry is allowed,
  - b. use protective gloves while examining of specimens,
  - c. in the case of minor injuries rinse the wound in tap water and manage it properly.
- 17. While examining the specimens, sufficient care should be applied to prevent the damage or loss of the specimen.
- 18. Leaders of the student's groups are responsible for damage or loss of the specimen.
- 19. Smoking in the area of the Department of Anatomy, as in whole building of Collegium Anatomicum, is prohibited.
- 20. Eating and drinking in Dissection Rooms is prohibited.
- 21. The students can, and are encouraged, to bring the anatomical tweezers, books and atlases to the Dissection Rooms.
- 22. To gain from the practical classes as much as possible, the students should have sufficient theoretical knowledge about the current topic.
- 23. At the end of practical classes students should fix the specimens according to the teaching assistant suggestions.
- 24. Taking of any photos or movies in dissection room is strictly prohibited!
- 25. It is not allowed to use mobile phones in the area of the Department of Anatomy!
- 26. Students who do not follow the regulations and do not react to the warnings can be expelled from the class. In all the cases such event will be reported in student's files. In special cases the Dean will be informed about the student's misbehavior.
- 27. Due to the changing epidemiological situation, the method of conduction of the anatomy course will depend on the current regulations, orders of the University Authorities and the Head of the Department of Descriptive and Clinical Anatomy. In case of any change the students will be informed accordingly.

## BASIC POINTS

#### **GUIDELINES FOR THE SEMESTRAL AND FINAL PIN TESTS**

Two structures marked with pins should be recognized on each of thirty stations.

There are 60 seconds of time per station. It is not allowed to touch, move or rotate specimens. The maximum score for one pin is 2 points.

Examples: left superior thyroid a 2p. right superior thyroid a 1p. superior thyroid a 1p

thyroid a Op. left Op **Attention!** Recognition of single structure in the way suggesting that the structure is paired or multiple = 0p. Example: right *trachea, left falx cerebri, superior tentorium cerebelli* 

On the final examination you need 76 points to pass. First 20 pins are so called basic points, it means the basic anatomical structures which should be known to every MD. These points will be scored 2 or 0 points only!

Example: pin shows the left common carotid artery

- 28. left common carotid a 2p.
  - 1. right common carotid a Op
  - 2. common carotid a 0p.
  - 3. carotid a Op.
  - 4. carotid Op

You can make only two mistakes in the basic points section! In order to pass, you need at least 36 points from this section.

#### OSTEOLOGY AND ARTHROLOGY

When the pin indicates a bone, you have to write the name of the bone and the side

Since the clinical practice often requires more detailed knowledge about some structures, in cases listed below precise recognition of the structure is required.

| CRANIUM                            | SKULL   |  |
|------------------------------------|---|--|
|                                    | Foramina and canals containing cranial nerves plus: |  |
| canalis caroticus                  | carotid canal                                       |  |
| meatus acusticus externus          | external acustic meatus                             |  |
| canalis nasolacrimalis             | nasolacrimal canal                                  |  |
| fossa hypophysialis                | hypophyseal fossa                                   |  |
| protuberantia occipitalis externa  | external occipital protuberance                     |  |
| sulcus sinus sagittalis superioris | sulcus of superior sagittal sinus                   |  |
| sulcus sinus transversi            | sulcus of transverse sinus                          |  |
| sulcus sinus sigmoidei             | sulcus of sigmoid sinus                             |  |
| alveolus dentalis                  | dental alveolus                                     |  |

#### It is not required to name the bone, but the side has to be given.

| OSSA CRANII    | BONES OF THE SKULL |
|----------------|--------------------|
| os frontale    | frontal bone       |
| os ethmoidale  | ethmoid bone       |
| os temporale   | temporal bone      |
| os sphenoidale | sphenoid bone      |
| os parietale   | parietal bone      |
| os occipitale  | occipital bone     |
| maxilla        | maxilla            |
| os zygomaticum | zygomatic bone     |
| os palatinum   | palatine bone      |
| os nasale      | nasal bone         |
| mandibula      | mandible           |

COLUMNA VERTEBRALIS

VERTEBRAL COLUMN

Basic structure may be marked also in the further (non-basic) part of the exam and in such a case it should be described in a more detailed form to gather the maximal score. For example, if the pin is inserted in the left ulna the name of the specific region of the bone should be given, eg. left ulnar tuberosity.

Medical University of Warsaw has property rights, including copyright, to the syllabus. The syllabus may be used for educational purposes at the MUW only. Using of the syllabus for other purposes requires consent of the MUW.

## ATTENTION

The final 10 minutes of the last class in the block/semester/year should be allocated to students' Survey of Evaluation of Classes and Academic Teachers.

## **3.** COURSE OBJECTIVES

The aim of the course of Histology and Embryology is to demonstrate and explain structure of the cell, tissues and organs. Starting from the ultrastructure of the cell, which is discussed along with the function of the organelles, microscopic anatomy of all human tissues and major organs is shown. During the classes, functional connection between microscopic anatomy of the organ and the function is highlighted. This is the background for further education of Biochemistry, Physiology and Pathology. Basis of the molecular biology and examples of diagnostic methods are lectured.

| 01        | Gaining knowledge regarding structure and function of the cell organelles, tissues and organs, as well as morphological adaptation of tissues to their function. |  |   |
|-----------|--|--|---|

## **9.** Additional information

1. The student research club is supervised by Izabela Młynarczuk-Biały, M.D. Ph.D. and Ryszard Galus, M.D. Ph.D., Associate professor http://histologia.wum.edu.pl - Studenckie Koło Naukowe

# General regulations - Histology and Embryology for medical students 6ED 2023/2024

#### 2020/2021

#### Organization of classes and seminars

- 1. Histology and Embryology is taught during lectures, seminars and practical classes.
- 2. Presence in lectures, seminars and practical classes is obligatory. Coming late to class by more than 15 minutes will be treated as an absence.
- 3. Classes begin with the seminar followed by a practical part.
- 4. Students have to be prepared for the class. Tutor will verify student's preparation to the class. Subject of seminars and classes are specified in the Topics of classes and lectures.
- 5. During the class, students discuss with their professor topics of the class and inspect microscopic slides,
- 6. schemes and electronograms. Images of tissues and organs inspected under the microscope should be drawn with color crayons in the notebook. All drawings have to be properly described (legend to the drawing).
- 7. Microscopes are provided for every student in the class. At the end of the class student should switch off the microscope and cover it. Microscopic slides, electronograms, microscopes or their parts must not be removed from the class.
- 8. During the period preceding intermediate or final examinations, every student group can borrow a set of demonstration slides for an at-home training. Sets can be exchanged any number of times. Before exchanging or returning the set, students have to put slides in order, according to the attached list. Students are financially liable for lost or damaged slides.

#### Presence in the classes and seminars

- To get the credit for the semester Student must be present in lectures and seminars and get credit in all classes.
- The prerequisite for getting a credit for the class is a positive note received on the knowledge of the discussed subject and properly done drawings of microscopic slides.
- Days of classes, including days of intermediate examinations, are days of obligatory presence.

- It is permitted to be absent up to 2 times during lectures and 2 times during classes in each semester. Absence must be justified with the tutor. Absence on 3 or more classes, regardless of the reason, results in not getting a credit for the semester, hence student will not be admitted to the intermediate examination.
- When students are absent, they are expected to negotiate with professors the form for make-up of lectures, seminars or classes missed.
- Student is obliged to make up for missed class.
- Classes uncredited because of an absence or being unprepared must be passed in the form established by the Head of the Department. Head of the Department will appoint the date of this test.

#### Credit

- 1. Dates of the intermediate examinations are decided by the university Pedagogical Council and cannot be changed.
- 2. Only students who were present in lectures, seminars and got credit for all the classes are admitted to the intermediate examination.
- 3. Intermediate examination in general histology and in microscopic anatomy consist of two parts: practical (slide recognition) and theoretical.
- 4. Intermediate examination in embryology has no practical part.
- 5. Intermediate examinations on the first and the second date are MCQ tests. Third final attempt of the intermediate examination (commission) have the form that is determined by the Head of the Department and is set after the permission obtained from the Dean's office.
- 6. Electronic intermediate examination tests online consist of 50 single choice questions. The duration of intermediate examination is 50 minutes. Electronic test examinations are held in the building of Main Library in the computer room.
- 7. The criteria to pass the test are determined by the Head of the Department, after the test, and they are expected to be not less than:
- 8. 60% of all questions in the test.
- 9. Students may evaluate their paper during the quiz. Then, if any reservations arise, students can flag the question and express their concerns via the examination platform. Later complaints will not be accepted.
- 10. Intermediate practical part must be passed <u>before the date of the retake MCQ test</u>. Students who failed practical part of any intermediate examination before the date of the retake examination will <u>not qualify</u> for the retake and last retake of MCQ test.

#### **Final examination**

- 1. The final examination comprises topics discussed during classes, seminars and lectures.
- 2. Student must pass all intermediate examinations scheduled in the program of the course to be admitted to the final examination.
- 3. Dates of the final examinations are decided by the university Pedagogical Council and cannot be changed.
- 4. Final examination consists of two parts: practical and theoretical.
- 5. Failing practical or theoretical part results in failing the examination.
- 6. Head of the Department can set an oral appointment of THEORETICAL final examination for students, who obtained at least 88% of all points received on intermediate examinations. For such appointment student needs to apply to the Head of the Department in writing (template of the application is available on the Department web site). Student IS NOT exempted from PRACTICAL examination.
- 7. PRACTICAL EXAMINATION must be taken BEFORE the appointment with the Head for the Department.
- 8. In the case of an absence during the final examination caused by medical condition, should present doctor's leave during three working days from the date of examination, or will receive a failing mark.
- 9. Retake of the examination is held during the retake examination session. If the student fails this examination, he/she can apply to the Dean for the permission for the second retake of the examination.

#### Practical examination

- 1. Practical part of the examination consists of recognizing 10 histological slides. Minimal number of recognized slides is 6. For each additionally recognized slide, the student receives 1 point, and for recognizing 10 slides 5 points.
- 2. Students who failed practical examination on the first date will take the MCQ test, whose positive result will be treated as the result of retake examination (student has to take again only practical examination).
- 3. Students who passed practical examination on the first date, but failed the MCQ test, do not have to take the practical examination once again during the retake (student has to take again only MCQ test).

#### **Theoretical examination**

- 1. Theoretical part of the examination is the MCQ test that consists of 100 single choice questions. The duration of intermediate examination is 100 minutes. Electronic test examinations are held in the building of Main Library in the computer room.
- 2. Examination test contains questions on topics discussed in the course.
- 3. The criteria to pass the test are determined by the Head of the Department, after the test, and they are expected to be not less than:
  - 60% of questions in the remaining part of the test.
- 4. Students may evaluate their paper during the quiz. Then, if any reservations arise, students can flag the question and express their concerns via examination platform. Later complaints will not be accepted.

#### Final grade

- 1. Final mark is set on the basis of both: practical and theoretical examination. Points received on both parts of the examination are considered.
- 2. Points from the practical examination are added to the points received on the MCQ test only to students, who had passed the MCQ test.
- 3. Points from the practical examination are added only once. These points are not added in examinations conducted during the retake session.

#### Position of the Chair regarding cheating during examinations

Cheating on examinations is a breach of ethics and Regulations of Studies at the Warsaw Medical University. Person actively or passively participating in cheating shall be punished by being expelled from the examination and receiving a failing mark. On the top of that, the Department shall institute disciplinary procedure against the cheating students.

Person actively participating in cheating is the one, who copies results from other students or uses illegal notes or electronic devices. Bringing such devices to examinations is forbidden.

Passive participation in cheating means allowing other students copy one's own responses. Thus, a student is obliged to behave honestly, not to allow other students copy his/her own responses.

Head of the Department obliges students and examiners to strictly obey these regulations.

Medical University of Warsaw has property rights, including copyright, to the syllabus. The syllabus may be used for educational purposes at the MUW only. Using of the syllabus for other purposes requires consent of the MUW.

## ATTENTION

The final 10 minutes of the last class in the block/semester/year should be allocated to students' Survey of Evaluation of Classes and Academic Teachers.

# OCCUPATIONAL SAFETY AND HEALTH AT WORK/STUDY

| 3. | Course objectives   |
|----|---|
|    | The aim of education is to familiarize students with the principles of occupational health and safety and fire safety during their studies at the Medical University of Warsaw, with particular emphasis on the risks associated with practical classes   |
| 01 | The subject is implemented under the Regulation of the Minister of Science and Higher Education of 30 October 2018 on how to ensure safe and hygienic working and education conditions at the university (Journal of Laws 2018, item 2090). (Pursuant to Article 51 paragraph 2 of the Act of 20 July 2018 - Law on Higher Education and Science (Journal of Laws, item 1668 and 2024)) |

## 4. STANDARDS OF LEARNING - DETAILED DESCRIPTION OF EFFECTS OF LEARNING

| Code and number of effect of learning in accordance with standards of learning | <b>Effects in the field of:</b> (in accordance with appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019) |
|--|--|
|--|--|

### Knowledge – Graduate\* knows and understands:

| C.W.14            | The impact of abiotic and biotic (viruses, bacteria) environmental factors on the human body and the human population, and the routes of their penetration into the human body |  |
|-------------------|--|--|
| C.W.15.           | The consequences of exposure of the human body to various chemical and biological factors and the principle prevention   |  |
| C.W.20.           | basic of disinfection, sterilization and aseptic procedures  |  |
| D.W.18.           | Team work rules  |  |
| E. W.32           | Basic issues of prevention and rules of conduct in the event of occupational exposure to hazardous and harmful factors   |  |
| Skills- Graduate* | is able to:  |  |
| D.U2              | See the signs of anti-health and self-destructive behaviors and respond to them properly   |  |
| D.U13             | D.U13 Follow ethical patterns in professional activities   |  |
|                   |  |  |

D.U16 Show responsibility for improving their qualifications and transferring knowledge to others

E.U26 Plan next steps after the exposure to blood-transmitted infections;

\* In appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019 "graduate", not student is mentioned.

| 5. Additional effects of learning (non-compulsory) |   |  |  |  |

## **8.** VERIFYING THE EFFECT OF LEARNING

| Code of the course<br>effect of learning | Ways of verifying the effect of learning   | Completion criterion               |  |  |
|--|--|------------------------------------|--|--|
| e.g. G.K1, G.S1, K1                      | This field defines the methods used for grading students e.g. pop quiz, test, written report etc.      | e.g. threshold number of points    |  |  |
| e-learning (e-L)<br>(e-L) 1 - (e-L) 4    | Obligatory participation in e-learning lectures.<br>Survey and test solution. Obtaining a certificate. | Completing the course consists of: |  |  |

| Dana taati  | 1. Dreamantion of the student to recently  |
|---|--|
|   | 1. Preparation of the student to pass the  |
|   | subject - in accordance with the topics of   |
|   | the course and content of education and  |
| - Test evaluated according to the criterion given on the right. | applicable literature  |
|   | 2.First, you should complete questionnaires  |
|   | before starting the test. Questionnaire .  |
|   | examine the general state of the Student's   |
|   | knowledge of hygiene rules,  |
|   | 3. Test solution: (the test continues 10 min)  |
|   | Passing the test   |
|   | Criterion evaluation:  |
|   | 2.0 (failed) - Receiving <12 points of correct   |
|   | answers from the test, absence from the  |
|   | lecture, no completed questionnaire.   |
|   | 3.0 (satsfactory) - meeting all the criteria for   |
|   | passing,(test - 12-14points)   |
|   | 3.5 (rather good) - meeting all pass criteria,   |
|   | (test - 15-16 points)  |
|   | 4.0 (good) - meeting all criteria for passing,   |
|   | (test- 17 points)  |
|   | 4.5 (more then good) - meeting all pass  |
|   | criteria, (test: 18 points)  |
|   | 5.0 (very good) - meeting all the criteria for   |
|   | passing, (test: 19-20 points)  |
|   | Pass test:<br>(20 single-choice questions), max 20 points can be obtained for<br>the correct solution of the test<br>- Test evaluated according to the criterion given on the right. |

# **9.** Additional INFORMATION (information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club)

1. Classes are held in the form of e-learning on the e-learning platform of the Medical University of Warsaw.

2. The condition of passing the course is a positive grade from the test completing the e-learning course and completing the survey. You can take the test a maximum of two times.

3. Completion of the course takes place on the e-learning platform in the first semester. The personally signed Certificate should be sent to the address <a href="https://www.edu.pl">bhpstudent@www.edu.pl</a>

4. If the course is not passed, it is necessary to contact the course coordinator - dr inż. Irena Kosińska (irena.kosinska@wum.edu.pl Phone number: 664-268-514, ul. Oczki 3, room 216)

5. Rewriting the course credit is done with the consent of the Head of the Department of Social Medicine and Public Health Prof. MD Aneta Nitsch-Osuch (an application should be submitted to the secretariat of the Department p.101, at the beginning of the winter semester)

6. The Scientific Society of Hygiene and Prevention operates at the Department of Social Medicine and Public Health (contact irena.kosinska@wum.edu.pl) and the website of the circle: www.skn-higiena-profilaktyka.wum.edu.pl), implemented topics: Hygiene environment and nutrition.

7. Deadline for completing the subject on the basis of e-learning of the Medical University of Warsaw

Signature of the person responsible for the syllabus & course coordinator /-/ Dr eng. Irena Kosińska

Signature of the Head of the Unit

/-/ Prof MD Aneta Nitsch-Osuch

Medical University of Warsaw has property rights, including copyright, to the syllabus. The syllabus may be used for educational purposes at the MUW only. Using of the syllabus for other purposes requires consent of the MUW.

ATTENTION The final 10 minutes of the last class in the block/semester/year should be allocated to students' Survey of Evaluation of Classes and Academic Teachers.

| B.U2 | Positive assessment of the skills acquired during the classes conducted by the teacher | sufficient skill acquisition assessed by a teacher |
|------|--|--|
| B.U9 | Positive assessment of the skills acquired during the classes conducted by the teacher | sufficient skill acquisition assessed by a teacher |

### **9.** Additional information

Before the first meeting students should check on the website of Department of Biophysics, Physiology and Pathophysiology which group they belong to and what is the order of seminars/experiments in that group (see "Division into Groups" and "Schedule"). If the sequence is changed this fact will be announced on the website.

Students belong to particular groups according to the division provided by the Dean's Office (it is not a matter of free choice). Students can change their groups only at the beginning of the course in justified cases.

Before laboratory classes, students should read and understand the relevant instructions available on the e-learning platform. At the beginning of laboratory classes students can expect an introduction given by the teacher. Then the experiment / (demonstration) will be performed. Finally, students receive a form of an experimental report with the instructions to be followed and the questions to be answered. The report should be signed by a student. The form should be returned to the teacher before the end of the meeting. Students are assessed on basis of the results of their reports. The results should be available for the students the next week.

Students' achievements are graded based on the final test results covering all material from lectures, seminars and practical classes. The test will be composed of 60 questions. To be admitted to the final test students are obliged to fulfil the following conditions:

- attend all seminars and practical classes,

- pass all of the quizzes on the e-learning platform (after each lecture and seminar students should complete a short quiz; to pass the quiz, student has to answer correctly at least 60 % of the questions),
- submit 5 experimental reports and collect at least 15 points (one experimental report would be assessed for maximum 5 points).

To pass the final test, the student has to answer correctly at least 60% of the questions.

Rules of grading:

| grade                | criteria              |
|----------------------|-----------------------|
| 2.0 (failed)         | 0-35 correct answers  |
| 3.0 (satisfactory)   | 36-40 correct answers |
| 3.5 (rather good)    | 41-45 correct answers |
| 4.0 (good)           | 46-50 correct answers |
| 4.5 (more than good) | 51-55 correct answers |
| 5.0 (very good)      | 56-60 correct answers |

Students who fail the test may retake it. There are two (and only two!) chances of repeating the final test.

All absences must be excused (e.g., sick leave) and made up with another group of students after consultation with the teacher. The further detailed information for students will be available on the website of the Department of Biophysics, Physiology and Pathophysiology.

Medical University of Warsaw has property rights, including copyright, to the syllabus. The syllabus may be used for educational purposes at the MUW only. Using of the syllabus for other purposes requires consent of the MUW.

ATTENTION The final 10 minutes of the last class in the block/semester/year should be allocated to students' Survey of Evaluation of Classes and Academic Teachers.

| 3. |  |
|----|--|
|    | The subject is taught in two modules: Clinical informatics and telemedicine and Biostatistics in clinical practice. The course is conducted in the form of blended-learning in lectures and in practice - in classes with an assistant, using a computer or a tablet. During the classes, clinical data collected in the Department during statistical analyses and examples of medical images are used. |
| 01 | During the course, the student learns the basics of biostatistics, databases, including bibliography, applications enabling scientific research and sample programmes useful in professional practice.   |
| 02 | The aim of the classes is also to present basic information on new specialisations and medical faculties: telemedicine, medical and clinical computer science, e-Health, mHealth and virtual reality.  |
| 03 | Student will develop practical skills in data processing and analysis.   |

### 4. STANDARDS OF LEARNING - DETAILED DESCRIPTION OF EFFECTS OF LEARNING

| Code and number of effect of<br>learning in accordance with<br>standards of learning |  | <b>Effects in the field of:</b> (in accordance with appendix to the Regulation of Minister of Science and Higher education from 26th of July 2019)  |  |
|--|--|---|--|
| Knowledge – Gra  | iduate* knows  | and understands:  |  |
| B.W26.   |  | basic information about technology and biostatistical methods used in medicine, including medical databases, spreadsheets and basics of computer graphics   |  |
| B.W27.   | basic statistical analysis methods used in experimental and clinical research  |   |  |
| B.W28.   | applications of the contemporary telemedicine as a tool supporting a medical doctor's work   |   |  |
| B.W29.   | how to perform scientific, observational and experimental research, as well as in vitro tests the purpose of which is the development of medicine  |   |  |
| Skills– Graduate'  | * is able to:  |   |  |
| B.U10.   | use databases, including the Internet and search for needed information with available tools   |   |  |
| B.U11.   | select the appropriate statistical test, perform basic statistical analyses and use appropriate methods for presenting the results; interpret the results of metanalysis, as well as conduct an analysis of the probability of surviving |   |  |
| B.U12.   | studies, des   | explain the differences between prospective and retrospective study, randomised and clinical and case-control studies, descriptions of cases and experimental research, as well as arrange them according to their credibility and quality of scientific evidence |  |
| B.U13.   | plan simple research and interpret the results and draw conclusions  |   |  |

### **5.** Additional effects of learning (non-compulsory)

| Number of<br>effect of<br>learning   | Effects in the fields of:   |  |
|--|---|--|
| nowledge – Grac  | duate knows and understands:  |  |
| K1   | process of developing new specialisations in the field of the academic discipline – medical sciences and achievements of leading representatives of Polish and world medicine |  |
| К2   | fundamentals of evidence-based medicine   |  |
| К3   | K3 methods of health assessment and the classification systems of diseases and medical procedures   |  |
| kills– Graduate is   | s able to:  |  |
| S1 critically analyse medical literature, including English literature, and draw conclusions |   |  |

| SC1 | keeping medical privilege and patients' rights |
|-----|--|
| SC2 | the use of objective data sources              |

| Form of class | Class contents   | Effects of Learning  |
|---------------|--|--|
|               | The module: Clinical Informatics and Telemedicine consists of lectures and classes. E-learning lectures are published on the eWUM Platform during the whole course.  |  |
|               | L1. – Lecture 1 – Telemedicine - legal and practical background.<br>Asynchronous e-learning, eWUM platform, specified weeks  | B.W28., K1, K2, K3, S1, SC1, SC  |

# 9. Additional INFORMATION (information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club)

Course begins with classes conducted by assistants at the Department of Medical Informatics and Telemedicine (Litewska 16, 3rd floor). Dates of lectures and classes for particular groups are given in the timetable and the course schedule in the eWUM Platform. During the first class, students will receive detailed information on the e-course.

To access the eWUM Platform (e-learning.wum.edu.pl/en), students log in as for the SSL-WUM service:

Please enter your ID (s0+ album number): s0XXXXX and enter the same password used for the SSL-WUM service.

We kindly ask each student to check before class if they can log in to the eWUM Platform. In case of any problems, please get in touch with the WUM IT Department (it.wum.edu.pl).

The person responsible for the didactics: Joanna Michalik, MD; joanna.michalik@wum.edu.pl

### **Course Regulations:**

1) Classes conducted by the Department of Medical Informatics and Telemedicine are compulsory, except for optional classes.

2) Students are entitled to one unexcused absence per class cycle. A larger number of unexcused absences results in failing to pass the course.

3) In the case of unexcused absence, the student cannot make up the classes.

4) In the case of absence explained by a medical exemption or activity in the University's governing bodies, the student must make up the classes in a form agreed with the teacher. The student must report to the teacher immediately after the reason for the absence ceases.5) Being late for classes is treated as an absence.

6) Applications to re-grade classes are accepted during the first two weeks of the semester. Applications should include the syllabus of the course in which the credit or mark is to be transcribed.

7) Credit for a course is given according to the syllabus.

Medical University of Warsaw has property rights, including copyright, to the syllabus. The syllabus may be used for educational purposes at the MUW only. Using of the syllabus for other purposes requires consent of the MUW.

### ATTENTION

The final 10 minutes of the last class in the block/semester/year should be allocated to students' Survey of Evaluation of Classes and Academic Teachers

- **9.** Additional INFORMATION (information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club)
- 1. Lectures are held according to the time-table provided by the Dean's Office.
- 2. Person responsible for didactics: Ewa Skrzypek, MD, PhD; e-mail: <u>ewa.skrzypek@wum.edu.pl</u>
- 3. The use of mobile phones and other recording equipment is forbidden.
- 4. Students cannot be late for lectures.
- 5. **Students are obliged to attend all lectures**. In the case of any absence, even justified, Students are obliged to determine the way of making up for the absence with the lecturer.
- 6. Three or more absences exclude the possibility of getting a course credit.
- 7. A course credit is given on the basis of:
  - a) lecture attendance,
  - b) active participation in lectures,
  - c) positive grade from the final test.

Medical University of Warsaw has property rights, including copyright, to the syllabus. The syllabus may be used for educational purposes at the MUW only. Using of the syllabus for other purposes requires consent of the MUW.

ATTENTION The final 10 minutes of the last class in the block/semester/year should be allocated to students' Survey of Evaluation of Classes and Academic Teachers.

# 8. VERIFYING THE EFFECT OF LEARNING Code of the course effect of learning Ways of verifying the effect of learning Completion criterion D.U1, D.U4, K1 Portfolio – open questions in the course Answering open questions included in the portfolio and having them positively assessed by the teacher D.W6, D.W8, D.W19, D.U1, D.U4, W1-W4, U1, U2, K1 Test at the end of the course 30 questions, 1 correct answer (single-choice test) Passing grade: min. 51%

# **9.** ADDITIONAL INFORMATION (information essential for the course instructor that are not included in the other part of the course syllabus e.g. if the course is related to scientific research, detailed description of, information about the Science Club)

The deadline for completing all modules and submitting all tasks in the e-learning course **is April 28<sup>th</sup>, 2024**, 11:55pm. A person who fails to pass the course in the first term (fails to complete e-learning modules in time or doesn't complete all tasks included in the e-learning course or has the tasks negatively assessed by the teacher) has the right to pass the course in the second term. As part of the second-term exam, in addition to fulfilling all requirements of the first term, you must prepare an interview about your experiences concerning contact with a healthcare professional in accordance with the criteria provided in the e-learning course.

The second deadline will be announced <u>after April 28<sup>th</sup></u>.

Students interested in participating in scientific associations are welcome to contact us.

The Department of Medical Communication operates the Student's Association of Medical Education; supervisor – Dr. Antonina Doroszewska (antonina.doroszewska@wum.edu.pl); SKN website – <u>http://www.facebook.com/sknedumedwum</u>

Medical University of Warsaw has property rights, including copyright, to the syllabus. The syllabus may be used for educational purposes at the MUW only. Using of the syllabus for other purposes requires consent of the MUW.

ATTENTION The final 10 minutes of the last class in the block/semester/year should be allocated to students' Survey of Evaluation of Classes and Academic Teachers.

| D33/34  | The course written test • Course oral test revision.   | D.U18, S1, S2, S3, S4, S5, SC1          |
| D35     | The course oral test.  | DW.6, D.U18, S1, S2, S3, S4, S5,<br>SC1 |

# 7. LITERATURE

Obligatory

The title of the textbook will be given at the first class meeting.

### Supplementary

Handouts prepared by the teachers.

### **8.** VERIFYING THE EFFECT OF LEARNING

| Code of the course<br>effect of learning | Ways of verifying the effect of<br>learning | Completion criterion  |
|--|---|---|
| DW.6, D.U18<br>S1, S2, S3, S4, S5, SC1   | Written test. Oral test.                    | To successfully complete the 1 <sup>st</sup> year Polish language course and obtain<br>credit, a student is required to:<br>• attend all classes (min. 13 out of 15 in a semester)<br>A student who misses more than 2 classes per semester without a valid<br>excuse will not be allowed to take the course tests and will not receive course<br>credits.<br>The only valid excuse for absence is illness. Absences due to illness will be<br>excused on presentation of a valid medical note within one week of return to<br>study.<br>The student is obliged to make up for each absence (excused or unexcused)<br>by performing a special written/oral task assigned by the teacher OR by<br>attending a class with another group (on teacher's permission). If a student<br>misses a class, she/he must catch up on the missed material. It is the student's |

| responsibility to comm   | unicate with the class teacher as soon as possible   |
|--|--|
| about any attendance is  | sues.  |
| <ul> <li>come to classes punct</li> </ul>                                  | ually  |
|  | than 15 minutes late three times per semester, it will   |
|  | rriving to class more than 15 minutes late is counted  |
| as an absence.   |  |
| actively participate in  |  |
| complete all the assign  |  |
|  | t at the end of the winter semester and the course (covering the coursework of both the winter and |
|  | he end of the summer semester  |
| Summer Semestersy at a   |  |
| A student who fails the o  | course tests can attempt two retakes.  |
|  | student receives is the average (arithmetic mean) of   |
| -  | t grades (grades of 2-5), or a grade of 3 for passing a  |
| retake. A minimum score  | e of 60% must be obtained on each (written and oral)   |
| test to pass the course.   |  |
|  |  |
|  | scheduled test will receive a score of 0 (which equals   |
|  | otifies the class teacher of the reason for her/his  |
|  | ithin three days of the scheduled test date and makes  |
| up the missed test if the  | reason is justified at the date set by the class teacher.  |
| A student who fails the  | second retake of the final test needs to repeat the  |
| course.  | second relake of the final test needs to repeat the  |
|  |  |
| Students who are 'indep  | endent users' of the Polish language (Level B2 as  |
|  | on European Framework) may be exempted from  |
|  | Polish language course (and the second year Polish   |
| language course provided they achieve the required score) if they pass the |  |
| B2 level examination organised by the University's Centre for Foreign      |  |
|  | yków Obcych) at the beginning of Year 1. Students  |
|  | exam should check with their class teacher for the   |
| -  | ation at the first class meeting.  |
| ,  | U U  |
| The scale of grades is as  | follows:   |
| 0  |  |
| 2.0 (failed)   | Below 60%  |
| 3.0 (satisfactory)   | 60-69%   |
| 3.5 (rather good)  | 70-79%   |
| 4.0 (good)   | 80-85%   |
| 4.5 (more than good)   | 86-90%   |
| 5.0 (very good)  | 91-100%  |
| , 8000,  |  |

### **9.** Additional information

### 9. Additional information

1) Students are required to attend all classes.

2) Absence from class is justified on the basis of a medical certificate or certificate of a random accident. The class should be done with another group after prior agreement with the person responsible for the subject.

3) Classes start on time, being late is treated as an absence.

4) Students use the workbook "Molecular Biology - materials for 1st year students of English Division Medicine" during the practical classes. It is sent in pdf version to students before the beginning of the course.

5) Students should wear a lab coat and lab gloves.

6) Persons applying for transfer of the subject from previous years or from another university should write an application to the Head

of the Department of General Biology and Parasitology and obtain permission of the Dean.

7) There are three possible attempts to take exams/credits.

Medical University of Warsaw has property rights, including copyright, to the syllabus. The syllabus may be used for educational purposes at the MUW only. Using of the syllabus for other purposes requires consent of the MUW.

### ATTENTION

The final 10 minutes of the last class in the block/semester/year should be allocated to students' Survey of Evaluation of Classes and Academic Teachers.

# 9. Additional information

During the practical classes and on contact with patients, we recommend medical clothing with short sleeves. Please do not wear private clothing. In case of using a white apron on personal clothing, the apron should be fastened. Long hair should be pinned back. It is necessary to change to theatre applicable footwear with adherence to safety rules. During practical classes in areas with patients – the rule "nothing below elbow" should be applied – that is watches, jewelry should be taken off. The "5 moments of hand hygiene" should be applied. Diagnostic medical gloves should be donned only after cleaning and/or disinfection of hands, directly before patient contact.

Prior to practical classes in the Medical Simulation Centre, it is mandatory to complete the relevant materials and e-lectures provided.

Any student not prepared for practical classes may not be allowed to participate.

In case of absence during classes, it is mandatory to participate with another group. All issues related to the absence must be reported to the head of the department.

The student groups are divided to be under the care of 1<sup>st</sup> Department (Lindleya) or 2<sup>nd</sup> Department (Banacha) – please see the master program provided by the deanery. The final test is organized by the Pediatric Department of Anesthesiology (1MC3)

Before taking the final test, the student is obligated to complete the lectures and receive a pass during the BLS classes. A second attempt will be allowed during the make-up examination session.

The subject is finalized and signed in the Pediatric Department of Anesthesiology and Intensive Care MUW. Any missed classes need to be consulted with the Head of the Pediatric Department of Anesthesiology and Intensive Care MUW or any person the Head deems responsible for ED students: Telephone 22 317 98 61.

Marking criteria:

2.0 (fail) – absence in classes/lectures or lack of BLS skills or 0-12 points on test

3.0 (satisfactory) - presence in classes and done lectures, adequate BLS skills and 13-17 points on test

3.5 (above satisfactory) - presence in classes and done lectures, adequate BLS skills and 18-19 points on test

4.0 (good) - presence in classes and done lectures, adequate BLS skills and 20-22 points on test

4.5 (above good) - presence in classes and done lectures, adequate BLS skills and 23 points on test

5.0 (very good) – presence in classes and done lectures, adequate BLS skills and 24-25 points

Medical University of Warsaw has property rights, including copyright, to the syllabus. The syllabus may be used for educational purposes at the MUW only. Using of the syllabus for other purposes requires consent of the MUW.

#### ATTENTION

The final 10 minutes of the last class in the block/semester/year should be allocated to students' Survey of Evaluation of Classes and Academic Teachers.

# VOCATIONAL TRAINING:

## Nursing – 4 weeks – 120h 1st year, 6-year program ED students Faculty of Medicine

Upon completion of each year of their study students are required to take their summer holiday vocational training which is mandatory and is included in the Polish medical curriculum.

First year students undergo a one-month nursing training being attached to the nursing personnel as nursing assistants (auxiliaries at teaching hospitals of medical academies) universities either in Poland or selected foreign countries. At a teaching hospital in Poland the head of the ward/department or an appointed instructor in charge provides a detailed programme as well as scheduled duties and maintains both supervision and assessment of student's performance.

The instructor in charge of first year students should be a fully qualified nurse who will supervise all nursing duties performed by students also those carried out with regard to patients in severe condition requiring intensive care.

Students are expected to have three to nine seven-hour duties on all shifts including up to three night shifts.

The main goals of the training are:

- 1. To acquaint students with a significant role of the nurse in the nursing and treatment of the patient,
- 2. To enable students to:
- acquire skills in performing ward routines e.g., taking temps and BP, making beds and

changing bedclothes, maintaining patients' personal hygiene, offering bedpans and

urinals, feeding patients, preparing drugs ordered for administration,

- learn the techniques of giving subcutaneous and intramuscular injections and instituting intravenous infusions.

Throughout the course of the training students are expected to make records of their activities and procedures performed. They are also assessed by the instructor in charge and are finally granted their passing mark by the head of the department. Certificates written in English or translated should be submitted to the Dean's Office of the Medical University of Warsaw by October 5th of the subsequent academic year.
